

## SANTA ANANS TO SHARE IN HUGE MINE ESTATE OF FINCH

Six Santa Anans will share in the distribution of \$342,000 of an estate estimated to be worth from \$3,000,000 to \$6,000,000, left by John A. Finch, millionaire pioneer of the Coeur d'Alene mining district, who died suddenly June 20 in Idaho. They are Mrs. Charles Finch, who lives north of the bridge on North Main street, and her five children. Mrs. Finch has not yet received advices as to the amount of the bequest left herself and children.

A petition for letters testamentary was filed in Spokane, Washington, June 29 and disclosed that the wealthy miner had bequeathed to his widow, Mrs. Charlotte S. Finch, six-tenths of his estate. Of the remaining four-tenths \$342,000 is bequeathed to several score relatives and friends, among them Mrs. Charles Finch, who is the widow of a brother of the deceased mining man. The residence will go to charitable institutions.

## PROBE TEASING OF PRISONERS IN JAIL

LOS ANGELES, July 2.—Supervisor Woodley has concluded his investigation into reports that persons in the county surveyor's drafting rooms flashed heliograph messages to women county jail prisoners.

## PRESIDENT TO STRETCH VACATION WEEK MORE

WINDSOR, Vt., July 2.—President Wilson plans to spend another week at Harkenden House. He worked several hours today on state matters but announced they were not connected with the Armenian incident or the proposed note protesting against the allied blockade.

## ARRESTED FOR FALSE SHIPPING OF GOODS

LOS ANGELES, July 2.—Federal agents today arrested Fred Lavinor, charged with attempting to ship goods between states under false labels. The government alleges Lavinor had knowledge of a plot to ship liquor into Arizona.

## NORTHERN CALIFORNIA BEATS SOUTH TENNIS

LONG BEACH, July 2.—The Johnson and Griffin tennis team, representing Northern California, defeated Benick and Moore, the Southern Californians, in the Pacific States doubles' tournaments, by scores of 6-2, 6-0, 6-0.

## SLAIN MAN NOT DEAD; JUST BADLY WOUNDED

VENTURA, July 2.—George J. Henley, the Sespe rancher, reported killed yesterday by Mason Bradford, is not dead. He has three wounds in the back, but none necessarily fatal. Bradford is in jail here.

## NO PEACE PACT UNDER WAY IN MEXICO, SAY DISPATCHES

GALVESTON, July 2.—Dispatches received today by the local Carranza headquarters from Vera Cruz deny the report that Generals Villa and Carranza are planning a peace pact.

## VILLA SAID NOT TO DESIRE PRESIDENCY OF MEXICO

WASHINGTON, July 2.—General Felipe Angeles, formerly Villa's chief of staff, today told the United Press that Villa did not desire the Mexican presidency.

THIS IS ROBERT LANSING on the last occasion in which he faced the photographers before he became secretary of state, instead of merely acting secretary as he was for the first few days after Secretary Bryan resigned. The picture was taken on the campus of Colgate College, Tuesday, June 22, just after he was given the degree of doctor of laws. The next day the announcement was made at the White House that the president had appointed him secretary of state.

## DRY SEASON ON; PREVENTION OF FIRES IS AIM OF RANGER

With warm weather arrived and the dry season starting in, Forest Ranger Burt Stephenson of El Toro is lining out things for the season's fire protection work in the Santa Ana mountains.

"If a fire never gets started, it will never do any damage," said Ranger Stephenson today. "Therefore, the most important thing in fire protection work is to prevent fires from starting. No harm will come from camping, if ordinary rules of precaution are used. The next important thing is to be ready to beat a fire out as quickly as possible. In that particular we are better prepared to fight fire in the Santa Ana mountains than ever before."

"The danger of fires starting this summer and fall is unusually great. The grass is high and will burn now at the slightest provocation. During these dry months it takes but the touch of a match, a cigarette or cigar stub thrown carelessly away or a spark or a coal of a campfire to start a fire. Though the leaves are green, brush will burn almost as easily as dry grass."

"When a fire starts in the Santa Ana mountains, there is always a big chance if the wind is right that it will sweep the whole range. That means sweep the water users of a great deal, not only to those who get gravity water from the Santiago, Trabuco and San Juan Creeks and the Santa Ana river—for there are a number of small canyons at the north end of the range that lead into the Santa Ana river—but to the underground supply. If the mountains are burned off and the winter's storm waters rush down unhindered to the sea, where will the underground basins get their supply be replenished?"

"One arrest has been made this season for leaving a campfire. With the increase in the number of automobiles the number of outing parties in the Santa Ana mountains has increased. Out of the many are a few who do not observe even the rudiments of fire protective principles. They know that it is against the law to leave a campfire burning. They know that they ought to carry water from the creek and pour on the coals. Rather than go to a little bit of trouble, they take a chance on getting arrested and their

## GREEK MEETS GREEK; INSURANCE MAN IS A MATCH FOR HOLD-UP

SANTA BARBARA, July 2.—Agreeing that only such a person as an insurance agent could "get by" with such boldness, acquaintances of an insurance agent named Benker, who has been stopping at a local hotel are still talking about how he talked a masked bandit out of robbing him.

Benker said he was cranking his automobile when a youthful bandit, wearing a black mask ordered him to put up his hands, flourishing a blue gun. Benker did not put up his hands, but commenced arguing with the hold-up man. He persuaded the youth to put his gun into his pocket, explaining the harsh fate that might befall him if he should commit the robbery and then fail to make his escape.

## CHARGES THE 'MOVIES' GAVE HIM TUBERCULOSIS

MINNEAPOLIS, July 2.—The latest accusation against the movies is that they cause tuberculosis. Paul Cullinan is today suing the Mutual Film Company alleging that the long hours and the fumes of the movie studio, while he was employed there, caused him to contract tuberculosis. He seeks \$25,000 reparation.

## EMPTY BOTTLES PAY COSTS OF MOTOR TRIP

BAKERSFIELD, July 2.—C. W. Porter of Los Angeles will start on a motor trip to New York next week, expecting to pay all his expenses by the sale of empty beer bottles picked up en route.

Porter arrived from Los Angeles last night and stated that he picked up sixteen dozen "dead soldiers" on the Mojave desert between Elizabeth Lake and Tehachapi.

## DUTY ON SUGAR TO GO BACK, IS BELIEF HELD AT CAPITAL

WASHINGTON, July 2.—With the end of the war yet a remote possibility, treasury officials are worrying over the apparent deficit in revenues.

Customs receipts for the last fiscal year amounted to \$299,268,107—or about \$11,000,000 under the estimates made by Secretary McAdoo, and \$82,000,000 below the amount received in 1914.

It became known today that many treasury officials are convinced that it is necessary for Congress to restore the old duty on sugar the next session. Sugar becomes free next year, whereas in the days when it paid duty it brought in about \$60,000,000 a year.

## DRIED FRUIT RATE IN CARLOADS TO BE REDUCED

SAN FRANCISCO, July 2.—Reduction in carload freight rates on dried fruits from California points to all points east of Colorado, which rate experts said would save shippers several hundred thousand dollars annually, have been announced by the Southern Pacific, representing all California terminal railroads.

The reduction was made to compete with water rates through the Panama Canal. It is an amplification of recently published reductions from \$1.30 to 80 cents and from \$1.10 to 60 cents on carload shipments of dried fruit in sacks and in boxes from Pacific Coast terminals to specified Atlantic seaboard terminals.

Under those reductions, authorized by the Interstate Commerce Commission, the old "intermediate rates of \$1.30 and \$1.10 still apply to shipments subject to payment of the 80-cent and 60-cent rates, plus local rates from point of origin to terminals wherever the old rates were lower. The announcement lowers these old rates 20 cents a hundred pounds."

## CHILDREN MOVE FOR PEACE OF ALL WORLD

DENVER, Colo., July 2.—A world-wide children's peace movement is being planned here today by an organized body of adult peace workers. The movement will be launched in each Sunday and public school of Denver and Colorado.

When the local organization is completed, probably sometime this month, a Children's Peace Day will be held at City Park, with thousands of children and their parents participating.

A pledge is to be taken by each child joining the movement. The pledge follows: "I pledge myself to add my mite to world happiness by using my best endeavor to spread peace at all times and in every place—at home, at school, at work, at play; to be brave enough to stand the taunts of those ignorant ones who declare that 'might is right,' instead of 'right is might.'"

## 'DANGEROUSLY MAD,' WITNESS CALLS THAW

NEW YORK, July 2.—State witnesses swore today that Thaw was a dangerous maniac. Police Inspector Grioux of Ottawa, said that when Thaw was being deported he yelled: "I'm kidnapped," and hurled a beer bottle through an automobile windshield.

"I thought him dangerously mad," said the witness.

\*\*\*\*\*  
THE CITRUS MARKET  
NEW YORK, July 2.—Thirteen cars oranges, five lemons sold. The 216 size oranges are strong; 250s and smaller easier. Lemons weak and prices unchanged. Avocados—Oranges, \$1.71 to \$4.50. Highest—De Luxe, \$4.80. Weather, cloudy; temperature, 67 degrees, cloudy.

THE DREAM OF A "GREATER ROUMANIA" just now being indulged in by the aggressive politicians of that Balkan kingdom is imposing a very difficult problem upon the allies. As the price for her entrance into the war, Rumania demands a large part of Bukovina and Transylvania, a desirable Rumanian province. The territory demanded in Bukovina and Transylvania contains almost 4,000,000 people, the city of Czernowitz, and thousands of square miles of the richest land in Europe.

## WHICH GOES TO SHOW EVEN A NEWSPAPER MAN HAS JUDGMENT

RICHMOND, Ind., July 2.—Somewhere in the wide, wide world is a man who knows that newspaper men have judgment. This man is named Blitt—Mr. George Blitt—professional itinerant.

While in this city Mr. Blitt indulged too freely of the cup that cheers, and that evening he was apprehended by a Richmond officer.

## CALIFORNIA SCHOOL CHILDREN LEAD IN SCHOOL SAVINGS BANK

SACRAMENTO, July 2.—School savings banks are rapidly coming to the front in California, according to data made public by E. E. Snyder of the State Board of Education. His figures show that \$110,000 has been placed in such banks by elementary school pupils.

In half a dozen cities the idea has taken a strong hold and many other communities are contemplating putting the system into practice.

Oakland leads the movement with 5500 pupils holding accounts that aggregate more than \$90,000. The plan has been in vogue there for five years. Alameda with 1200 pupils who have deposited nearly \$6000, and Berkeley with 1700 young depositors are the next in line. In Long Beach 1000 pupils have deposited \$3800.

## 700 BEGIN WORK AT CANNING OF APRICOT CROP

ONTARIO, July 2.—Seven hundred men and women this morning began the work of canning apricots at the two big plants here.

It is expected the peach workers will swell this number to 1100, giving a season's pay roll that will reach \$80,000.

## ORANGE CROP IS 500 CARS OVER CROP OF 1914; IS NOT OVER

REDLANDS, July 2.—The orange crop just closing is 500 cars in excess of last fall's estimate. The total to date is 4443 cars.

Last season at the same date, there had been shipped 3910 cars. Last season's total was 4368 cars.

Redlands has 215 cars yet to ship.

## CARPENTERS' STRIKE NEAR SETTLEMENT

CHICAGO, July 2.—Edward Hines, chairman of the building material industries committee, today announced he was willing to talk peace with representatives of the striking carpenters.

This seems to bring near to an end the hard fought strike.

## ODD FELLOWS MEET TO COMPLETE DRILLS

SAN DIEGO, July 2.—Odd Fellows from Los Angeles, Santa Ana, Riverside and other southern cities arrived today to complete the drills and parade as a feature of their big meeting.

## SETTLEMENT IS HOPE IN IMPERIAL WATER

LOS ANGELES, July 2.—Attorneys representing the California Development Company and the Imperial Water Company today told Judge Myers they hoped for an amicable settlement of the water rents dispute. The case was then continued until Tuesday.

## FINED \$10 FOR TYING DAUGHTER TO TREE

SACRAMENTO, July 2.—Lorenzo Catalano in police court today admitted tying his nine-year-old daughter to a tree, but denied beating her. Witnesses declared the girl was lashed. Catalano was fined \$10.

## HEY! POMONA BEATS SANTA ANA TO IT

POMONA, July 2.—Ground was broken today for the erection of the five-story commercial and tourist hotel being built by W. M. Avis, to cost \$100,000.

\*\*\*\*\*

## BLAST KILLS 90 WOMEN MAKING WAR ROCKETS FOR FRENCH BATTALERS

\*\*\*\*\*  
MARSEILLES, July 2.—A pyrotechnic factory here making army rockets today exploded, killing ninety persons, mostly women. Four bodies have been recovered. \*\*\*\*\*

## BRITISH PRESS REFUSES TO PALLIATE LINER SINKING

preNDON, July 2.—The British press today editorially rejects the Armenian justification because the liner was captured to escape.

None of the papers make any reference to the Armenian being engaged in "admiralty business."

It does not seem to be believed here that there will be any new American protest over the sinking of the Armenian.

The Daily Express bitterly criticizes the censors for holding up the news of the sinking for two days.

## SAYS BRITISH REFUSED PLAN TO USE POISON GASES

NEW YORK, July 2.—Dr. W. B. McLaughlin, a Brooklyn chemist, today declared that the British refused to use poisonous gases because the practice was contrary to the rules adopted by The Hague convention.

He asserts that three months before the Germans commenced the use of gas he showed British attaches at Washington how to pour sulphide dioxide gas into the enemy's trenches. The British ambassador refused to consider the plan.

## ZEPPELIN REPORTED BURST AS LEAVING BRUSSELS SHED

AMSTERDAM, July 2.—It is reported that a Zeppelin exploded this forenoon as it was leaving its shed in Brussels, and that the entire crew probably perished.

The dispatches say the cause of the explosion has not been ascertained.

## THREE MORE BRITISH SHIPS SENT TO THE BOTTOM

LONDON, July 2.—Three more big British steamers have been sunk by German submarines, making a total of five lost within twenty-four hours.

The steamers Caucasian, Inglemoor and Welsbury are the latest victims. The Welsbury sailed from Cuba carrying a cargo of sugar.

Shortly after leaving Havana the crew found a huge sign in the hold bearing the painted warning: "You have a cargo of sugar for England—you will never get there."

The crew laughed at the warning, believing it the work of a practical joker.

Last night a submarine appeared alongside the Welsbury off Castleton and shelled the vessel.

Trawlers rescued the crew.

## PROBING ALLEGED VIOLATION OF NEUTRALITY LAWS

SAN FRANCISCO, July 2.—The Federal grand jury is today completing its investigation into the alleged existence of a British recruiting office here. Three alleged recruits were today released on bail.

The grand jury is also probing the case of the steamship Sacramento, charged with violating the neutrality law in delivering supplies to the German fleet off the Chilean coast last November.

## GERMANS TIPPED OFF AS BRITISH VESSELS SAIL

LONDON, July 2.—The Admiralty claims to have received definite information that German submarines are being informed of the departures of British vessels from American ports.

Officials believe that a "tipping off" system has been perfected in the last two weeks, which greatly strengthens the undersea war and simplifies the task of the submarines.

## ARMENIAN SINKING MAY CAUSE ANGLO-AMERICAN DISPUTE

WASHINGTON, July 2.—Some fear is felt that the sinking of the Dominion liner Armenian may lead to a controversy between England and the United States.

If the Armenian was a war transport, as has been claimed, then it should never have been permitted to clear from Newport News.

The administration will probably start an investigation to determine the exact status of the torpedoed vessel.

It is regarded as extremely unlikely that the incident will give rise to any controversy between Germany and the United States.

## CREW MUTINIES IN FEAR OF BEING SUBMARINED

QUEENSTOWN, July 2.—Fearing that the vessel might be submarined, the crew of the Norwegian bark Abyssinia mutinied today and refused to

### CELEBRATION AT BALBOA TO BE GIANT AFFAIR

Two-Day Fete Will Ring Affairs Previously Held Orange County

Preparations for what is confidently believed will be one of the biggest Fourth of July celebrations ever held in this county are now in full swing at Balboa. The beautiful beach resort on "The Sandspit" is taking on a gala appearance, what with thousands of yards of red, white and blue bunting which is being used to decorate every building. There will be two big days of gaiety at Balboa, the celebration beginning Sunday morning and continuing until late Monday night. Canoe, motorboat and sailing races

will furnish one of the greatest attractions on both days. Thrills and close finishes are freely being predicted by the fans. Some of the fastest motorboats to be found in Southern California are at Balboa and excitement is reign when the various crafts are pitted against each other in the contests. The skippers of the canoes, "water wagons" have been tuning up their boats for several days and are practicing daily. They are ready to show some sensational bursts of speed when the starting gun is fired. The program includes a large number of aquatic events of various sorts. A "blaze of glory" will wind up the festivities on Monday evening. One of the most elaborate fireworks displays having been arranged for. Those having the program in charge declare that this display of pyrotechnics will rival anything that has ever been seen in Orange County. The largest crowd that has ever visited Balboa is expected at the resort on Sunday and Monday. Preparations to handle the great number of people have been completed and it is certain that there will be accommodations for all. Dancing at the pavilion will be one of the principal features of the festivities.

### NOVEL BERRY EXHIBIT SHOWN AT ANAHEIM

M. Fischer of South East street has a novel exhibition at Dickel's store, says the Anaheim Herald. It consists of a number of strawberries of the "Konigin Luise" brand bearing ripe strawberries, green ones and the blossoms. Mr. Fischer bored holes in the side of the barrel and put the roots in through the hole into the soil inside. A number of rows of plants were put in this way and the ground kept wet. The plants flourished and are now a very beautiful sight. He now has five acres of these fine plants, the originals being imported from Germany, and will place a number of them for sale next spring. One of the excellent points in the "Konigin Luise" is the delicious wild strawberry flavor.

### SPECIAL CARS ON THE P. E. TO BEACH JULY 5

The Pacific Electric Railway Company has announced special train service for July 5th as follows: Leave Santa Ana for Newport and Balboa—6:45, 7:55, 9:55, 10:55 and 11:55 a. m. Leave Orange for Newport and Balboa, direct—7:42 and 8:42 a. m. Returning from Balboa and Newport direct to Santa Ana and Orange—9:10 p. m. and 12 midnight.

**A COUGH REMEDY THAT RELIEVES**  
It's prepared from the healing Pine Balsam, Tar and Honey—all mixed in a pleasant, soothing Cough Syrup called Dr. Bell's Pine-Tar-Honey. Thousands have benefited by its use—no need of your enduring that annoying Cough or risking a dangerous Cold. Go to your dealer, ask for a 25c original bottle Dr. Bell's Pine-Tar-Honey, start using at once and get rid of your Cough and Cold.

### Freckle = Face

Sun and Wind Bring Out Ugly Spots; How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.—Advertisement.

### Today's Feature Story

[By a United Press Staff Correspondent]

WASHINGTON, D. C.—A "self-supporting" navy, making its own battleships, torpedo boats, submarines, torpedoes, projectiles, armor plate, powder and all war supplies, is the ideal of Secretary of the Navy Daniels.

Recently he outlined to me his hopes of a naval Utopia. He believes it is not only possible but probable that, with proper financial assistance and approval from Congress, realization of his plans may be reached before the end of the present administration.

"Of course we never expect to manufacture all of our own materials for the navy; we will probably always buy a certain amount of supplies needed, but it is my hope that the navy will be equipped to make in part all of the supplies it uses," Secretary Daniels stated.

"By manufacturing our own supplies we are not only largely independent of private manufacturers, avoid being 'helped up' in prices, but also destroy the incentive of private manufacturing interests to bring pressure upon Congress for large appropriations in the interest of private profit."

It is Secretary Daniels' idea that if the navy is equipped to make its own supplies, private manufacturers will not, when Congress comes to appropriating money for them, feel that as a matter of course the contracts will be let to them. It would then be uncertain whether the money would be spent in government navy yards or private manufacturing plants. The "hounding" of Congress for large appropriations would then be largely avoided.

Secretary Daniels pointed out that the effects of such an administrative plan were already seen.

constructing its own dreadnaughts. He hopes to build one of the new dreadnaughts Congress may authorize next winter at the League Navy Yard at Philadelphia. The Brooklyn Navy Yard has already qualified in this respect in the recent construction of the battleship New York. Incidentally, she was completed four and a half months earlier than her sister ship, the Texas, built by private contractors.

The new battleships Arizona and California are also achievements of government employees at the Brooklyn yard. Submarines are also being built in the government's own yards as well as fuel and supply ships.

"Construction of ships in navy yards justifies an enlargement of that policy," says Secretary Daniels. "It was discouraged formerly because, by an unwise system of accounting, overhead charges, in nowise properly chargeable against new construction, were added to the actual cost of construction. This made it appear that ships built in navy yards cost more than in private yards, and the facts were not in accordance with that appearance. In fact, taken as a whole, the contrary is true."

We are still out of jail and have been with you some time and like it outside. Come down, look us over. We want to show how easy it is to be separated from your money. Good serviceable used cars of late model at right prices, fully guaranteed.

From the lookout a view of the entire range is secured. The telephone line is connected with Ranger Stephenson's house at El Toro and Ranger Searcy's house at Temescal, and with several houses in Trabuco, including the home of County

# MOTHER OF SCHOOL GIRL

**Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.**

Plover, Iowa.—"From a small child my 13 year old daughter had female weakness. I spoke to three doctors about it and they did not help her any. Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vegetable Compound according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy."—Mrs. MARTIN HELVIG, Plover, Iowa.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

# The Basket Grocery

Fifth and Main. Both Phones.

Number 249, which drew the 42-piece Dinner set, not claiming the same, we will again endeavor to select a winner next Saturday, June 19, at 3 p. m.

We request those having numbers to be present at that time, if possible.

Everything in Good Groceries.

# Beginners

Why buy an expensive piece to begin on; and on the other hand, why buy a bum old thing when you can buy a

**STAMPED LINEN TUMBLER DOILY for 2c, or 3 for 5c, and white or colored Embroidery Flosses at 2c or 3 for 5c. or an 18-in. Doily for 10c**  
See these and start a piece at once.

**Merigold Bros.**  
Odd Fellows Bldg.

Fire Warden W. E. Adkinson. Pesterfield will go on duty next Monday. The organization is maintained in such a way that no time is lost in getting to a fire.

Robert M. Shaw of Black Star canyon will be fire guard again this summer. He is paid by the Villa Park and El Modena water companies. The O'Neill interests will have two fire riders at work, one in the San Juan canyon. Jack Combs is to ride on the Trabuco side.

During the next week Ranger Stephenson will be busy getting things into shape for the dry season. He is to put in a big box of axes and shovels at Pleasant's place in the Santiago canyon, and another box in the San Mateo.

Fire-fighting tools are already to be found at the County Park, Shaw's place in Black Star canyon, Holtz's place in the Silverado, George Harris' place in the Trabuco, at the forks of the Trabuco, at the Verdugo and the ranger's station in San Juan canyon, and in Sevierville.

**New Trails Open**  
Three new trails and fire-guards have been built out of Trabuco canyon, and mountain climbers who this summer camp in the Trabuco will find their recreation in getting to the mountain tops less difficult than ever before.

This week Ranger Stephenson disbanded his crew of brush cutters and trail grubbers. The appropriation for the fiscal year was used, and with dry weather the ranger is to put in his time looking out for fires. During the last year a fire-guard has been cut along the top of the main ridge of the Santa Ana mountains from a point near Mt. Modjeska to the edge of the Cleveland National Forest above Corona.

The last work was the making of the fire-guards and trails out of the Trabuco. The plan followed is to cut brush from a strip twelve to twenty feet wide, and along the middle of this strip a trail is built, roots being grubbed out for it. Through the trails the ridges become accessible and from the guards back-firing can be done if necessary.

One of the three new Trabuco trails starts at the forks where Holy Jim canyon comes into the Trabuco. It goes along the main ridge to Trabuco Peak, the first big peak to the southeast of Santiago Peak, which is the southeast peak of Old Saddleback.

Another of the trails starts at Yaeger's place and goes to the top of Los Pinos, at the head of Bell and Red Springs canyons.

The third starts at Yaeger's and goes to the divide, joining the Horse-thief and Lone Pine trails, from which one can get to Elsinore and Temescal.

# ANGEL CHIEF DENIES DILLON TO BE LET GO

LOS ANGELES, July 2.—Tom Darnoldy, vice president of the Angels, today flatly denied the report that President Powers plans to release Dillon and secure a new manager.

**Steel Company Incorporates**

# DEATH RELEASES ORANGE WOMAN FROM MONTHS OF SUFFERING

ORANGE, July 2.—Death yesterday evening released Miss Mary E. Babb from pain, and she passed away after a lingering illness at the home of her sister, Mrs. J. F. Allen, on Handy street. Miss Babb, who was taken ill at Albuquerque, New Mexico, last October, came to Orange seven months ago, but the change did not bring the hoped for improvement, and she gradually failed.

Her loss is a misfortune to the cause of humanity and Christianity as she has devoted the best part of her life to helping her fellow man and spreading the word of God among the untaught. For twenty years she has been in missionary work among the Indians and Spanish of Oklahoma, New Mexico and Arizona.

Miss Babb was born in Greenville, Tennessee, September 17, 1869. Her childhood was spent in that state and while in her early teens she moved to Arkansas. As a young woman she entered her chosen work which has been followed faithfully from the first. She was at Albuquerque for three years before ill health compelled her to retire from the field.

Her passing will be widely mourned by the many who have come under her influence and benefited thereby, and by those who knew her fine qualities.

The Modern Pricillas of Villa Park gathered Wednesday at the home of Mrs. Carl Durnbaugh, which was very prettily decorated in red, white and blue, suggesting the approach of the Fourth of July. On account of the busy apricot season the attendance at the meeting was not as large as usual but those present had a most delightful time. Refreshments were served. The next meeting will be held with Mrs. C. O. Field next Wednesday, when election of officers will be held.

The Eastern Star changed their custom Wednesday evening, of holding their annual children's night program at the Masonic hall and chose the county park as a delightful outdoor setting for the event. Though light showers in the afternoon threatened to interfere with their plans, the outing was held as scheduled and with very pleasant results to all concerned.

The crowd of nearly a hundred met at Masonic hall and were transported to the park in automobiles. The grounds were lighted up with Japanese candles which were assisted in illuminating by the auto headlights which were turned on the gathering. A sumptuous supper was spread on the long tables and was followed by an evening of boat riding and other pastimes. The outdoor innovation was voted a success.

Mr. and Mrs. C. B. Christenson leave this morning for San Diego, where they will remain over Sunday. The Thimble Club went to the county park today for an all-day picnic outing.

Mrs. N. B. Spray was a Los Angeles visitor yesterday.

Mr. and Mrs. George E. Shriver and their guest, Miss May Brantigan, of Edmunds, Kansas, left this morning for Winchester to spend today and tomorrow.

Harry Handy and family, Joe B. Handy and family, Ray Handy and family and James Conle and family of Yorba, went to San Pedro today to attend the golden wedding anniversary of Mr. and Mrs. O. Handy, parents of the Handy brothers and Mrs. Conley.

Miss Ruth Robbins of Pasadena is spending some time with Mrs. A. B. Tiffany at the county park.

Mr. and Mrs. G. W. Whitsell and daughter Beulah, Miss Dorothy Perkins and Claude Potter left this morning by auto for San Diego to visit over the Fourth.

Miss Irma Brown is home after a visit of ten days with her aunt, Mrs. J. C. Jacob, of Prado.

Mrs. Ed Ward of East Palmyra avenue was down town yesterday for the first time in two months, she having had an extended illness.

Mrs. W. J. Richardson is reported on the sick list.

Mr. and Mrs. N. U. Potter and sons Raymond and Glenn, with the Frank Knight family, left this morning for

# Removal Sale

Bear Valley, where they will camp for a short time.

Mr. and Mrs. H. E. Fouch and family and Theodore Griffith motored to Long Beach yesterday.

Dr. and Mrs. E. M. Stewart, who have been visiting at the H. B. Slater home for the last few days, are in Los Angeles to visit until Sunday.

**General Petroleum Affairs**  
Non-depositing bondholders of the General Petroleum Company at a meeting at which Captain John Barneson, president of the company, presided, formed a protective committee. The company's difficulties, it was brought out, are financial rather than physical, which can be corrected by a reorganization.

Capt. Barneson detailed the necessity of an organization to protect themselves, referred to the entanglements with the British company and gave a synopsis of the present condition of the company. He said that production had increased 30 per cent, business had increased 20 per cent, and cost of production, which is now 10 cents a barrel, had decreased 30 per cent. Considering only operating conditions, Captain Barneson said the company was earning net at the rate of \$1,200,000 a year. Current accounts payable have been reduced to \$40,000. Of the \$1,500,000 advanced by the English interests, the president said he believed, if all the company's credits could be checked up, only \$700,000 was now due.

Protective committee is composed of the following: Frank B. Anderson, chairman; John D. McKee, Joseph Grant, Percy Morgan, Mark Gerstle, Maxwell McNutt, Herbert Clayburgh and Richard Mulcahy.

**Pushing Alaskan Railroad**  
In report submitted Secretary of the Interior Lane by Lieut. Mears, who is in charge of the construction work of the government owned Alaskan railroad, it is learned that work on the road is being pushed, construction camps are being established, 500 men are now employed, which number will soon be increased to 2000.

Order your salads, cooked meats, cakes, rolls, etc., at W. D. Baker's for the 4th. 214 West Fourth street.

Whittall Rugs are the finest rugs made in America. Sold only by Chandler's, 510-516 North Main St.

# HOW WAS SO JOYOUS ALL MEMORY OF IT GONE

When Jesus Ordas and A. P. Celaya, two of the Mexicans who were concerned in a big fracas on the Bastanchury ranch near Fullerton one Sunday morning recently, appeared in Justice Cox's court this morning they were utterly unable to recall any of the circumstances prior to, during or after the row.

All they knew was what Sheriff Jackson and his officers already knew—that three of the Mexicans in the battle had been nearly annihilated by another Mexican; that when the sheriff arrived on the scene Celaya had a big iron bar in his hands and that Celaya was suspected to have been the man who inflicted the damage on the trio of Mexicans.

All those mixed up in the fuss, including Celaya, were practically hors d combat both before and during the fracas, owing to vast quantities of spirituous liquors that they had consumed. So great had been the amount of alcohol imbibed that the Mexicans' memories were nil.

As a result of this inability to recall any of the happenings on the Bastanchury ranch on the fateful Sunday morning Justice Cox discharged Ordas and Celaya this morning, with the injunction that they behave in the future.

Francisco Jimenez, another of those embroiled in the recent battle, was fined \$15 on June 22, after he pleaded guilty to disturbing the peace.

In defense of the feminine fashion the injurious charge is made that they are designed by men.—Chicago News.

**THROW AWAY

## ANOTHER KIND OF WEDDING

Not all the wedding announcements are of the frilly, fluffy, bridesmaidly kind of thing. Frequently one reads in the papers of secret marriages and elopements, where the only decorations are the dingy furnishings of a justice of the peace office, and the only attendants the legal witnesses. The newspapers scent a romance, however, and set their crack sleuths at work to scare up a story and scare head.

Probably the publicity given by the newspapers to affairs of this kind is largely due to the injudicious attitude of the families. Many parents, if they do not approve of a marriage, try to keep it out of the papers. To newspapers of the yellow type, this operates as a powerful incentive to use every effort to get a story on the affair.

If the family does not approve of a marriage, the wise course for the young couple is to keep their disapproval to themselves, and frankly give out the details of the ceremony, which are usually simple and short enough. This disarms the newspaper detectives. When there is no desire manifested for concealment, the sleuths can't see any chance for a story. The report is boiled down and put in an inconspicuous place. The public reads and forgets.

If the family refuses to give out any facts, however, the yellow newspapers print a story in which imagination fills all gaps. Home papers, located more closely to the people, may or may not keep it out. But even if they join in the policy of suppression, this does not silence gossip. Indeed, it directly aggravates it, for the more feeling people show over an affair, the more the gossips talk.

Frank publication of facts about any event stops all that. This is true not merely of weddings but of many other happenings, where people only aggravate their own troubles by trying to suppress things that can't be concealed.

## MUDDIEST OF RIVERS

The Missouri is the muddiest river in the Mississippi Valley; it carries more silt than any other large river in the United States except possibly the Rio Grande and the Colorado. For every square mile of country drained it carries downstream 281 tons of dissolved and suspended matter each year. In other words, the river gathers annually from the country that it drains more than 123,000,000 tons of silt and soluble matter, some of which it distributes over the flood plains below to form productive agricultural lands but most of which finds its way at last to the Gulf of Mexico.

It is by means of data of this kind that geologists compute the rate at which the lands are being eroded away. It has been shown that Missouri River is lowering the surface of the land drained by it at the rate of 1 foot in 6,036 years. The surface of the United States as a whole is now being worn down at the rate of 1 foot in 9,120 years. It has been estimated that if this erosive action of the streams of the United States could have been concentrated on the Isthmus of Panama it would have dug in seventy-three days the canal which has just been completed, after ten years' work, with the most powerful appliances yet devised by man. (Overland Guidebook, Bulletin 612, U. S. Geological Survey.)

## Lesson of Old Glory

The lesson of the Stars and Stripes was detailed by President Wilson in an address delivered in connection with the celebration of Flag Day in Washington, Monday. A great throng greeted the chief magistrate. He spoke from the south front of the treasury building. Said President Wilson:

**President Wilson's Address**  
"For me the feeling does not express a mere love of vague sentiments. It is the embodiment not of a sentiment but of a history, and no man can rightly serve under that flag who has not caught some of the meaning of that history. You do not create the meaning of a national life by any literary exposition of it, but by the actual daily endeavors of a great people to do the tasks of the day and live up to the ideals of honesty and righteousness and just conduct. And as we think of these things, our tribute is to those men who have created this experience. Of these men we feel that they have shown us the way. They have not been afraid to go before. They have known that they were speaking the thoughts of a great people when they led that great people along the paths of achievement. There was not a single swashbuckler among them. They were men of sober, quiet thought, the more effective because there was no bluster in it. They were men who thought along the lines of duty, not along the lines of self-aggrandizement. They were men, in short, who thought for the people whom they served and not of themselves."

**What the Flag Means**  
"But while we think of them and do honor to them as those who have shown us the way, let us not forget that the real experience and life of a nation lies with the great multitude of unknown men. They constitute the body of the nation. This flag is the essence of their

daily endeavors. This flag does not express any more than what they are and what they desire to be; and as I think of the life of this great nation, it seems to me that we sometimes look to the wrong places for its sources.  
"We look to the busy places where men are talking in the market place; we look to where men are expressing their individual opinion; we look where persons are expressing passion; instead of trying to attune our ears to that voiceless mass of men who merely go about their daily tasks, try to be honorable, try to serve the people they love, try to live worthy of the great communities to which they belong. These are the breath of the nation's nostrils; these are the sinews of its might."

**Be Patriotic Always**  
"There are no days of special patriotism. There are no days when you should be more patriotic than on other days.  
"I am solemnized in the presence of such a duty. I would not undertake to speak your thoughts. You must interpret them for me. But I do feel that each one of every public official, but of every man and woman in the United States marches that great host which has brought us to the present day, but the host that has never forgot the vision which it saw at the birth of the nation; the host which always responds to the dictates of humanity and of liberty; the host that will always constitute the strong and great body of friends of a man who does his duty to the United States.  
"I am sorry that you do not wear a little flag of the Union every day instead of some days, and I can only ask you, if you lose the physical emblem, to be sure that you wear it in your heart, and the heart of America shall interpret the heart of the world."

## Business Conditions Reviewed

(From L. A. Financial News.)

In its monthly letter reviewing business conditions throughout the country the Farmers' and Merchants' National Bank of Los Angeles says that complete revival of business will not come until there is a cessation of political interference with business and that one thing which still stimulates many of our manufacturing industries, the foreign demand for food products, both manufactured and in raw materials. Many railroads are also reported to have placed heavy orders for steel cars and other equipment. While labor has been more generally employed, many manufacturing plants are not running full-handed, and much labor is unemployed. Improvement in manufacturing lines is not as general as we would like to see it. Certain lines only show revival. Commercial failures are slightly decreased in number and in the amounts involved. Railroads generally show decreased earnings, but increased net results, proving strict economy in operating expenses. Complete revival of business will not come until there is a cessation of political interference with business. Just as a burnt child dreads fire, so capital, intimidated, threatened, handicapped by too many laws for its control, will avoid new enterprises.

**General Business Conditions**  
"Conditions in America show slow but gradual improvement. The European war still stimulates many of our manufacturing industries. The foreign demand for food products, both manufactured and in raw materials. Many railroads are also reported to have placed heavy orders for steel cars and other equipment. While labor has been more generally employed, many manufacturing plants are not running full-handed, and much labor is unemployed. Improvement in manufacturing lines is not as general as we would like to see it. Certain lines only show revival. Commercial failures are slightly decreased in number and in the amounts involved. Railroads generally show decreased earnings, but increased net results, proving strict economy in operating expenses. Complete revival of business will not come until there is a cessation of political interference with business. Just as a burnt child dreads fire, so capital, intimidated, threatened, handicapped by too many laws for its control, will avoid new enterprises.

**Bank Deposits Increase**  
"In most of the financial centers of the country bank deposits have increased. This result is brought about by the heavy trade balances which this country enjoys, and to a timidity on the part of capital to develop new industries. The movement of the present maturing crops will put a great deal of this money into circulation, and will probably reduce bank deposits of the larger city banks. The prospects are that this year's crops will be marketed earlier than usual. If so, crop returns will find their way into the banks more promptly than heretofore. As usual, when bank deposits are abnormally swollen, accompanied by a lack of speculative movement, and a tendency on the part of investors, merchants and

manufacturers, to await developments, demand for money is light, and interest rates for short time monies are low. The same conditions make interest rates for long time money correspondingly high.

**Investments**  
"Leading stocks have fluctuated violently in price during the past month. Bond brokers report a fairly active demand during the first part of May for first-class bonds, municipals preferred. The ease with which \$200,000 Argentine five-year 6's were placed caused considerable surprise. The State of Tennessee recently sold \$1,750,000 of refunding 4½'s on a 4.25 per cent basis. The City of Montreal sold \$6,100,000 three-year 5's without difficulty. At the present writing, the bond market is inactive as the result of the controversy with Germany. Investors apparently are waiting for a final decision in that matter.  
"Several public utility corporations in California have applied to the railroad commission of the state for authority to issue either bonds or secured short time notes. The readiness with which these issues are absorbed will be a good barometer as to the temper of the investing public for local projects. Notwithstanding present conditions, there is a fairly active demand for well-located California farm lands, mostly by actual settlers who indicate a steady increase in the population of the state. Farm lands throughout the middle west are reported to be in more active demand."

**Crop Prospects**  
"Local crop prospects are encouraging. Cantaloupes are going forth from Imperial Valley in large quantities. Strawberry berries are in good quality and in abundant supply. Deciduous fruits promise well. The price of oranges has materially improved. The 1916 crop of oranges, lemons and walnuts promises an abundant yield. Hay is plentiful and of good quality. The yield of grain in California should exceed last year's crop.  
**Stock and Dairy Interests**  
"Best cattle are selling at first hands considerably cheaper than a year ago. Butter also rules lower. Lessened prices for these commodities result from increased local production, importations by reason of tariff reductions now in effect, and by decreased consumption caused by financial stringency and enforced economy on the part of many householders. With a greater general activity, more employment of idle workers in tanning for growing and harvesting matured crops, a more active demand for these products will result in better prices. With ample ranges and plenty of feed for fattening hogs, the coast still imports the largest part of pork products consumed here.  
"Our conclusion is, that we can expect better general conditions during the coming summer than we have enjoyed during the earlier months of the year, while the marketing of our fall crops should greatly stimulate trade activities."

C. E. PARKER.  
Notary Public in and for said County of Orange, State of California.

## Prosperity Reigns in Arizona

"Arizona is enjoying a greater degree of prosperity than the new state has experienced since it has become a state. Our people are getting more money, the cattle men are getting more money, more for their copper and more for their agricultural products than they have in years," said Senator Mark A. Smith of Arizona, who was in Los Angeles this week en route to the two big fairs. "Of course, Los Angeles will harvest a large share of our profits because this is our playground and here is where we come when we want a vacation. The summer delegation from Arizona this year will be a big one."

"Wilson will be re-elected," he declared, "by the largest vote ever given a president. He has proven a powerful man in the recent crises. Bryan's action in resigning was not justified. It was an inopportune time for him to quit his post. If we keep out of the present European war, it will be due largely to President Wilson. There is always a chance of being drawn into the struggle because of the fact that nations at war are unreasonable. They have to a great degree lost their sanity. For this reason, we must remain calm and forbearing."

"At the same time, I believe we should increase our navy. We have been lulled to sleep by the belief in our impregnability due to our water surroundings. The war has awakened us. I believe that we should enlarge our naval program, particularly as to an adequate fleet of submarines. The submarines spell efficiency. The Germans have shown us that. But it takes twenty years to build a navy. I think that both houses of congress may be depended upon to reflect the wishes of the American people as to adequate naval protection."

All left-overs of our stock of Shoes at 75c a pair. Young's Store, 305 W. Fourth St.

After that tired Fourth of July, call at W. D. Baker's and get your supper already cooked. 214 West Fourth St.

Women's skirts promise to be almost as wide as the skirts of the satisfied cloth manufacturers.—Pittsburg Gazette-Times.

CERTIFICATE OF PARTNERSHIP  
FICTITIOUS NAME

State of California, County of Orange—

We hereby certify that we are partners, transacting business near Trabuco, Orange County, in the State of California, under a designation not showing the names of the persons interested as partners in such business, to-wit:

SLEEPER & WALLER.  
The names of the partners are: James Sleeper, residing at Santa Ana, California; William Isaac Waller, residing at Trabuco, California.

Witness our hands this 28th day of June, 1915.  
WILLIAM ISAAC WALLER,  
JAMES SLEEPER,  
Santa Ana, California.

State of California, County of Orange—  
On the 28th day of June, in the year one thousand nine hundred and fifteen, before me personally appeared James Sleeper and William Isaac Waller, known to me to be the persons whose names are subscribed to the foregoing instrument and they acknowledged to me that they executed the same.

Witness my hand and the seal of my office, this 28th day of June, 1915.  
(Seal) W. B. WILLIAMS,  
County Clerk in and for Orange County, California.

**ESTRAY NOTICE**  
June 22, 1915.  
Strayed to Maybury Ranch, 1 mile northwest of Santa Ana, 1 rat-tailed, ball-faced, dark brown horse; weighs about 1050 lbs. 15 hands high, 10 or 11 years old. Owner may have same by proving property and paying charges.  
CHAS. HEHL,  
Santa Ana, Cal.

**NOTICE**  
In the Superior Court of the County of Orange, State of California, No. 7125, Dept. 1.

In the Matter of the Dissolution of Orange County Automobile League (a Corporation).  
Notice is hereby given by the undersigned, Clerk of the County of Orange, and ex-officio Clerk of the Superior Court thereof:

That on the 8th day of June, 1915, by an order of the above entitled court there was filed with the Clerk thereof the application of J. E. Pearce, A. C. Drake, C. J. Drake and J. M. Pearce, praying for an order of said court that Orange County Automobile League, a corporation organized and existing under the laws of the State of California, with the place where its principal business is to be transacted at the city of Santa Ana, California, be dissolved.

That any person may file objections to said application at any time before the expiration of the time of publication of this notice, which time will expire on the 8th day of July, 1915.

Dated June 8th, 1915.  
W. B. WILLIAMS,  
Clerk of the County of Orange and ex-officio Clerk of the Superior Court thereof. (Seal)

By J. M. BACKS, Deputy.

**ESTRAY NOTICE**  
Santa Ana, Cal., June 24, 1915.  
To Whom It May Concern:

This is to certify that I have taken up the following described estray:

One unbroken bay horse, about 3 years old, 15 hands high, weight about 1000 pounds. Scar on right hind neck, probably made wire cut. Said horse was taken up at my ranch on county road 4 miles northeast of Olive. Probably worth about \$75.00. Address Santa Ana, Cal.

J. A. TURNER.

**NOTICE TO CREDITORS**  
No. 7121

Estate of Edward R. Amerige, deceased. Notice is hereby given by the undersigned executor of the estate of Edward R. Amerige, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit the same with the necessary vouchers within ten months after the first publication of this notice (which publication was first made on the 25th day of June, 1915.) to the said executor at the office of his attorney, S. M. Davis, Room 5, Trust Building, in the City of Santa Ana, County of Orange, State of California, which place is hereby designated as the place of business of said estate in the County of Orange.

Dated this 24th day of June, A. D., 1915.

GEORGE H. AMERIGE,  
Executor of the last Will and Testament of Edward R. Amerige, Deceased.

S. M. DAVIS, Attorney for the Executor, 5 Trust Bldg., Santa Ana, Cal.

# 1776-1915 Patriotism Modernism

One hundred and thirty-nine years of freedom and prosperity bid us rejoice.

The bell that proclaimed the signing of the Declaration of Independence is now a silent and revered relic, but still the spirit of '76 rings out in the battle cry of progress.

Aeroplanes fly and race miles up in the air. Messages are delivered to ships thousands of miles from shore. It is possible to telephone from New York to San Francisco. At the birth of 1904, greetings were telegraphed around the world.

Listen to phonograph—ride in an automobile—see a moving picture show—take a trip to the top of a sky-scraper—travel on an ocean liner, an electric car or a steam railroad—then, let a surge of real patriotism course through your veins in contemplating what a grand and glorious heritage our forefathers made possible for us.

The Wardrobe is an institution of Modernism and Progress. It is with a feeling of patriotic pride that we look upon the part we have played in the commercialism of Santa Ana—the service we have rendered and the spirit of the Golden Rule that has been interposed in the relations with our fellow man. The security of our word, the honesty of our values and such merchandise as KUPPENHEIMER CLOTHES have inspired the confidence of our patrons.

What we see in looking ward one hundred and thirty-nine years but inspires us for a greater tomorrow. Pessimism was exchanged for enthusiasm when electricity was swapped for the tallow candle.

Let us all put our shoulders to the wheel. For our country. Aye—and for Santa Ana.

## AUTO'S NO GOOD CHASING DOWN A BUGGY

Constable Clark Finds That  
Out In Four-hour Pursuit  
of McGilvray

When it comes to a rough and ready chase, a horse and buggy has got it all over an automobile, provided that the buggy does not break.

Constable John Clark of Garden Grove can prove it. His own personal experience is testimony.

It took him four hours in an auto to capture Angus McGilvray, who rode in a buggy behind a horse. In the end, McGilvray was put in jail, and today an inebriety charge was put against him by Clark. Since McGilvray has been arrested no less than half a dozen times for intoxication, the charge may result in sending McGilvray, who is about 19 years old, to Patton.

But that chase last night was a hummer. McGilvray was making night hideous over at Westminster, where he lives. Upon receiving this information, Clark, in his auto, started out to get McGilvray.

McGilvray rode lightly-spun down the street, Clark in an auto after him. The auto got in front and stopped. McGilvray whirled on one wheel, and beat the back trail. Before the auto got around, McGilvray had a big lead.

This act was repeated numerous times during the course of the evening's chase.

Then the buggy got to going where the auto couldn't go. McGilvray cut across plowed fields. Clark had to go around the street to head him off. Sometimes he got there in time, sometimes McGilvray turned back.

Several boys got into the game, but none of them cared to tackle McGilvray, whose mood is reported to have been an unpleasant one.

After many tribulations, however, McGilvray was cornered so that he had to leave his buggy. He sought refuge on the steps of the Methodist church, where a number of Westminster's citizens had gathered for prayer meeting.

Clark travels with a cane, and cannot run. McGilvray was ready to jump and run at the approach of the constable. In the meantime he delivered himself of some remarks in a loud and carrying voice, much to the annoyance of the prayer meeting attendees. Clark sent for half a dozen young men. The reinforcements divided into two squads, and they came up from behind the church on each side and took McGilvray by surprise. He put up a fight that made the church edifice ring. Finally a pair of handcuffs was put on McGilvray, and he was taken to jail in Santa Ana.

## ESCAPE INJURY AS FORD TURNS TURTLE

A Ford car owned by F. Botel, 2231 Sunset Boulevard, Los Angeles, and driven by John Irvine, 530 Wall Street, Los Angeles, turned turtle at the southern end of Main street this afternoon. Neither of the occupants were injured.

## TAKE CENSUS TAKER SLEEPER FOR ONE OF THOSE PESKY AGENTS

Record Will Include Name  
and Address of Every Resident  
of Township

"Wait a minute, please, I am not an agent, I am taking the census."

Claude Sleeper has been ringing door bells going on his second day now. He is taking the census of Santa Ana township.

Every time he approaches a house he is prepared for a stony stare or a cold shoulder or a frozen look or a warm reception or a hot shot or something of that sort. Agents have been unusually plentiful of late, and some of the good housewives are getting tired of answering the door bells.

"Once they get to the door and find out what I want, I have no trouble getting the information," said the census taker this morning, "but, believe me, a lot of them give me a look that says: 'You are an agent, get out!'"

The census is being taken at the order of the Board of Supervisors under a state law that makes it necessary to count noses in a township whenever a change in classification is asked for. If Santa Ana township shows up with a population of over 15,000, Justice Cox and Constables Heard and Coleman will get their salaries raised from \$75 to \$100 a month.

Sleeper is keeping the records in such a way that when he is through he can tell exactly what the population of Santa Ana city, as well as township, is. Santa Ana township includes Santa Ana, Tustin, Irvine, Delhi and Old Newport.

Sleeper is not taking a life history of each resident. All he wants for his purposes is the name and residence. He is generous in his tendencies. He is not going to overlook anyone if he can help it. He wants to get the name of every person in every house, rooming house, hotel, and tent, from the head of the house down to the new born babe. The only qualification necessary to get on his list is "residence." Transients will not be included.

**American Banks in China**  
In recent days, American commercial attaché to the United States consulate in Peking, wrote the State Department regarding the need of American banks in China, in which he said:

"Until we have in China a solid, well-capitalized American bank there is little hope for a substantial increase in American trade in this country. There are industrial plants to be installed, China offering the best field in the world for cotton manufacturing. There are tens of thousands of miles of railroads to be built, there are railways, electric plants, glass manufacturing establishments, oil mills, flour mills, etc., to be erected, there are rich mineral deposits to be mined and marketed and native products to be exported. But these all require the assistance of foreign banks in order that they may be profitably handled. There is not the necessary ready money in China for these undertakings. The various foreign banking interests in China have been financing just such works as these mentioned, and the trade of the countries who offered the financial assistance prospered proportionately.

"Owing to the present disturbed conditions in international affairs an opportunity now presents itself in a very attractive way for the entrance of American banks in China, but the work must be engineered by men on the spot, men familiar with conditions in that country. Such men it is possible to obtain, and it remains for American banking interests to give this old their intelligent attention. Never in the history of China have the people of this country been more friendly disposed toward America and American than at present; hence, now is the time for American manufacturers, working through American banks, to come to this field and establish themselves in such a manner that like certain large American companies that have their own organizations strongly entrenched in this country, they may profit by the opportunities that this market has to offer to well-capitalized concerns willing to give intelligent consideration that marks the business of such companies at home."

Since then a Chinese Commercial Commission has visited this country and now here and the chairman, Cheng Hsun Chang, at a dinner of the Chinese Merchants' Association in New York, announced the fact that he and other Chinese financiers have united with American bankers to form a Chinese-American bank in Shanghai with a capital of \$5,000,000 gold. The chief branch of the bank will be in San Francisco and it is understood that leading capitalists of that city are among the promoters of the bank.

**Competition in Oil Bids**  
According to John Francis Neylan, chairman of the State Board of Control, the state, says a Sacramento telegram has been able to get honest competition in the purchase of its 100,000 barrels of oil this year. The drop in the price of oil has netted the state a saving of 20 per cent over the prices originally quoted, or \$11,000.

In January of this year the Harbor Board advertised for bids for fuel oil, their needs ranging between 40,000 and 70,000 barrels of fuel oil for the next three years. Three companies submitted identical bids. The Harbor Board awarded the business among the three companies and forwarded the contracts to the Board of Control for approval. On March 31st the Board of Control announced that it would withhold approval on these three contracts, because it was convinced the three companies during the past four years had formed price agreements.

"During the last two weeks," says Neylan, "at the state institutions we have received bids on fuel oil, the total being above 100,000 barrels. Prices have dropped to 56 cents. About one-half of this reduction is due to the decline in the price of oil at the wells and the other half to the entry of another oil company in the field. We are returning without approval the Harbor Board's contracts and have requested that a new proposal for bids be advertised at the earliest possible moment."

306 East Fourth St., Santa Ana.

half to the entry of another oil company in the field. We are returning without approval the Harbor Board's contracts and have requested that a new proposal for bids be advertised at the earliest possible moment."

Receipts of Municipalities

State Controller John S. Chambers has just completed the compilation of statistics, showing the receipts of 212 towns and cities of the state for the year 1914. The total receipts, which approximately equal the expenditures, including debt obligations, such as bond sales and revenue loans, amount to \$68,330,330.37. In 298 cities and towns for the year 1913, the receipts amounted to \$63,830,310.65. A comparison of the receipts for the two years, classified according to the subdivisions used by the United States Census Bureau, includes as the most important:

|  | 1913.        | 1914.        |
|--|--------------|--------------|
| Gen. prop. taxes ..                                  | \$25,994,282 | \$29,714,854 |
| Special taxes for district or public improvements .. | 1,464,653    | 2,349,767    |
| Liquor licenses ..                                   | 2,774,350    | 2,841,525    |
| Other bus. licenses ..                               | 1,985,216    | 1,119,702    |
| Subventions from State ..                            | 1,193,246    | 2,190,330    |
| Departmental receipts ..                             | 3,780,266    | 2,213,734    |
| Public service enterprises ..                        | 5,367,430    | 5,432,826    |
| Debt obligations ..                                  | 20,230,525   | 18,850,563   |

# Be Careful in Selecting Your Tooth Brush

Otherwise you are likely not to get the brush that just meets your particular needs. No two persons have teeth exactly alike.

Teeth vary in length, in their curve, in being set close together or far apart. Then, your gums may be firm or tender, requiring stiff or soft bristles.

You need a brush that "fits your mouth," in size and shape and degree of bristle stiffness.

Select the brush exactly suited to your needs, with a satisfaction-or-money-back guarantee from among the big variety of styles of

### KLENZO Tooth Brushes

Klenzo Tooth Brushes are hand-made in France, from the finest bristles, all hand-drawn and knotted. We guarantee to refund your money if they come out.

Each brush comes in a sanitary individual carton.

Select your Klenzo Tooth Brush from the display case in The Rexall Store, showing 12 different styles. You will receive your brush in the carton so that no hand touches it but yours.

Klenzo Tooth Brushes are made in 3" and 4" row, bleached and unbleached bristles; sanitary, ventilated, perforated and solid backs; curved, straight and penetrating bristles, price 35c.

### PEARL Tooth Brushes

Pearl Tooth Brushes, with their distinctive style handle, have been favorites for years throughout the United States and Canada.

They are hand-made in France, with the finest bristle and whitest bone handles it is possible to obtain. Your money refunded if the bristles come out.

Pearl Brushes are made in only one shape with slightly curved bristles, and tufted end—each in sanitary carton.

Four rows of best bristles in medium and hard textures with hole in end of handle and hook, for hanging up; price 25c.

These high money-back qualities at such low prices are made possible through the buying and distributing co-operation of more than 7,000 Rexall Stores—one leading drug store in each important city and town in the United States, Canada and Great Britain.

Select one of these good Tooth Brushes to take with you on your vacation. You can find these tooth brushes only at

## THE TAXING OF CORPORATIONS IN CALIFORNIA

(From L. A. Financial News.) Under tax amendment No. 1, through which California secures its revenues for the government, corporations in the state, will this year pay in taxes to the state on their operative properties the sum of \$15,935,793.12, a net increase over what they paid last year of \$1,427,134.68. These are the figures given out by State Controller John S. Chambers and the State Board of Equalization. There are three decreases shown in the Board of Equalization report, one on the taxes to be collected from the car companies, one from the express companies and the third from the oil well companies, the total decrease amounting to \$6,433.74.

The largest taxpayers under the law which requires corporations to pay on their gross income from operative property are the railroads. They must pay to the state \$6,588,283.88, an increase of \$270,698.72 over the 1914 tax. Segregated the amounts paid by the corporations this year and last, cents being omitted, follow:

| Corporation        | 1915       | 1914       |
|--------------------|------------|------------|
| Telephone and Tel. | \$ 757,232 | \$ 708,534 |
| Power              | 122,751    | 124,614    |
| Express            | 18,295     | 107,755    |
| National Banks     | 1,153,442  | 945,929    |
| State Banks        | 1,072,931  | 885,823    |
| Insurance          | 2,922,553  | 816,096    |
| General Franchise  | 1,325,927  | 1,140,819  |
| Building and Loan  | 17,295     | 11,011     |
| Water              | 104,469    | 95,669     |
| Mines              | 69,870     | 66,310     |

|  |             |            |           |         |
|--|-------------|------------|-----------|---------|
| Oil Wells  |             |            | 410,034   | 445,155 |
| Southern Pacific Largest Taxpayer  |             |            |           |         |
| From figures given out by the State Board of Equalization the heaviest taxpayer in the state is the Southern Pacific Railroad Company, which corporation will pay more than one-fifth of the \$15,935,793.12 to be raised by the state from the 600 operative corporations, the Southern Pacific Company's operative properties in the state being assessed at \$58,059,463 and the tax on these is \$3,018,119. The assessments and the taxes of the more important gas, light and power and railroad companies follow: |             |            |           |         |
| Gas, Light and Power   |             |            |           |         |
| Assessment   | Tax         |            |           |         |
| Great Western Power  | \$2,680,185 | \$140,709  |           |         |
| Los Angeles Gas & Elec   | 4,359,318   | 228,854    |           |         |
| Mountain Whinery Power   | 645,528     | 33,795     |           |         |

| San Francisco United Railroads   |             | 8,379,786  | 429,993   |         |
| Western Pacific  |             | 2,602,908  | 136,652   |         |
| Santa Fe Railroad  |             | 18,109,324 | 955,307   |         |
| Southern Pacific   |             | 58,059,423 | 3,018,119 |         |
| Pullman Company  |             | 1,853,192  | 72,209    |         |
| Wells Fargo Company  |             | 4,755,759  | 25,092    |         |

Besides these there is a long list of lesser corporations in the state which contribute from \$1000 to \$20,000 each.

### Cement Output in 1914

The total production of Portland cement in the United States in 1914, according to Ernest F. Burchard, of the United States Geological Survey, was 33,220,170 barrels, valued at \$1,783,398; the production for 1913 was 32,097,131 barrels, valued at \$2,557,617. The output for 1914 represents a decrease in quantity of 3,866,361 barrels, and a decrease in value of \$10,768,219. The value assigned to the production is computed on the basis of 92.7 cents a barrel, or the average value of the Portland cement shipped in 1914.

The shipments of Portland cement from the mills in the United States in 1914 amounted to 36,427,956 barrels, valued at \$3,418,175, compared with \$3,659,377 barrels, valued at \$3,106,975, shipped in 1913. This represents a decrease in quantity of 2,251,421 barrels and in value of \$8,988,500. The average factory price per barrel in bulk for the whole country in 1914 was 92.7 cents, compared with \$1.005 in 1913, a decrease of 7.8 cents a barrel. This price is about 11.8 cents higher than the average price in the Lehigh district and is near the average price in New York, Illinois, Iowa, the Southeastern States, and the Plains States, but falls 42.5 cents below the average price received in Utah, where Portland cement brought the highest figure during the year.

Among the States there were unimportant changes in rank as cement producers. Pennsylvania and Indiana held first and second places respectively, as for many years, but both of these large cement-producing States suffered an appreciable reduction of output. In 1913 the output of California exceeded that of New York, but in 1914 this State dropped from third to fifth place. New Jersey dropped from seventh to ninth place, having been passed by both Michigan and Iowa in 1914. The State of Kansas, which has attracted considerable attention in the cement world, first because of the rapid development of the industry within its borders on account of the proximity of abundant supplies of suitable raw material and cheap natural gas, and later because of the warning of the gas supply and the consequent increase in cost of manufacture of cement which resulted in curtailment of output, maintained its rank of tenth among cement producers but in the reduction of output, although the price of cement here fell considerably below the average. Iowa and Ohio both showed gratifying increase in output and appear also to have kept prices up more successfully than many other States. In the far west, in Washington, conditions were brought into better balance by a considerable curtailment of production and an increase in shipments, although prices fell heavily; in Utah production was largely increased.

## Fourth of July SPECIALS

# Gem Market

H. SEIDEL, Prop.  
218 West Fourth St.

For Saturday we will have 100 Young Rabbits three months old. They will weigh from 1 1/2 lbs. to 2 lbs. apiece. These will be very fine for Fourth of July lunch baskets. Just like fried chicken, at 30c apiece. Also 500 lbs. Boneless Pot Roast at per lb. 12 1/2c  
500 lbs. Shoulder Pot Roast at, per lb. 12 1/2c  
500 lbs. of Boiling Meat at, per lb. 8c

We are now the only market handling government inspected meat exclusively.

Free delivery to all parts of the city.

### California Bank Act Defined

No national bank in California can qualify as trustee, executor, administrator or registrar of stocks in the interpretation of the banking act of California by State Superintendent of Banks W. R. Williams. His opinion is based on section 90, article four of the act. The superintendent maintains that our law restricts the powers sought to a corporation organized under the state laws, which national banks are not. The question is a nation-wide one, several states having passed enabling legislation covering it. The decision was made to quiet numerous inquiries addressed to the superintendent by banks by act as trustee, executor, administrator or registrar of stocks and bonds in states where the exercise of such powers are not in contravention of state laws. The national banks of California sought under this provision to act as trustee, executor, administrator of corporate trusts, administration of personal estates, executor of wills and registrar of stocks and bonds.

## PACIFIC MAIL HAS GOOD FINANCIAL YEAR IN 1915

(From L. A. Financial News.) The Pacific Mail Steamship Company has reported for the year ended April 30, 1915, showing net income of \$888,482, against \$1,018,406 for the previous year. The income account compares as follows:

|                                | 1915.       | 1914.       |

Under the management of Pomona College and H. G. Heisler.

## ONE WHOLE LOT IS SOLD FOR 84 CENTS

brought about by the European war. Many of the ships of the belligerents have been taken out of the transpacific service and of the Suez service for war purposes. As the result of this the company was enabled to obtain a larger proportion of the traffic.

"The decrease in the revenues of the Panama line is due principally to the fact that in November, 1914, as a result of the opening of the Panama canal, the company ceased to participate in the through carriage of freight and passengers between San Francisco and Atlantic ports via the Isthmus of Panama. In addition to this the service to Mexican ports has frequently been interrupted during the past year on account of revolutionary disturbances in Mexico and the company's business with Central American countries has been less than normal owing to the effect of the European war on the financial conditions of those countries.

"Eleven notes, aggregating \$1,127,989 face value, issued in connection with the purchase of the steamers Mongolia and Manchuria, were retired during the year at a cost of \$794,109, leaving outstanding twenty-nine notes of \$102,541 each, out of sixty-four notes originally issued on November 1, 1911.

"With the exception of the remaining twenty-nine notes given for the purchase of the steamers Mongolia and Manchuria, the company is free from debts other than those for current expenses. At the close of business April 30, 1915, the company had time deposits at New York amounting to \$500,000, payable January 29, 1916, and cash on hand at New York, San Francisco, London, Hongkong and Shanghai amounting to \$1,360,543. The current assets, other than cash and time deposits, largely exceed the liabilities for current expenses. The fleet and property have been maintained at the company's high standard of efficiency."

This year's styles in women's millinery—why should it be necessary to distinguish?—are awfully becoming. —Chicago News.

## Our Exports of Cheese

Prior to the breaking out of the war the exports of American cheese cut but little figure. Now from the port of New York alone a total of 2,500,000 pounds is being shipped abroad every week, the cheese being put up in boxes containing 50 pounds each. Not only is the demand for cheese heavy in the British army, which army uses 4,500,000 pounds per week, but the British people demand it. From Canadian ports there is shipped 10,000 boxes every week to Great Britain.

For the sum of eighty-four cents, cash in hand, County Tax Collector Lamb this morning sold a piece of land three blocks long to Mrs. Margaret McClintock, represented at the sale by her daughter, Miss Cora McClintock.

By description, the property is lot C, Fisher tract, Santa Ana. There are not many lots in Santa Ana that can be bought for anywhere near eighty-four cents. However, this lot is a peculiarly shaped contraption. It runs from First street to Fourth street. At one end it is 632 feet wide and at the other end it is five feet wide. It was originally intended in mapping the tract that it should be part of a street, but no street was ever put through. Taxes were not paid on it, and the property was sold to the state.

It so happens that the strip adjoins the ranch owned by Mrs. McClintock. When it was put up for sale, Miss McClintock bid eighty-four cents, the amount necessary to get it. About \$5 back taxes will also have to be paid.

"Leaps from the Battery to Bellevue." "Is well he didn't jump the other way."

SANTA ANA, CAL.

# BLAST KILLS 90 WOMEN MAKING WAR ROCKETS FOR FRENCH BATTLERS

(CONTINUED FROM PAGE 1)

The officers opened fire on the mutineers and a bloody battle ensued on the decks in which three sailors were shot, two fatally.

The harbor police finally quelled the mutiny.

## TEN THOUSAND ALLIES DIE IN BAYONET CHARGES

A. HENS, July 2.—The British are reported as steadily progressing in their Dardanelles campaign.

The super-dreadnaught, Queen Elizabeth is heading a fleet of eight warships now pounding away at the Turkish fortifications.

Sir Ian Hamilton and his land forces are sweeping forward, following a shell-riddled path through the Turkish barbed wire entanglements.

It is reported, but without confirmation, that the British have captured the Krithia forts.

The Turkish and German commanders are fiercely resisting every inch of the British advance.

Bloody bayonet charges have been the cause of many casualties. It is estimated the allies have lost 10,000 men, while the Turkish loss is considerably more than this figure.

## FRENCH FLYER DESTROYS AUSTRIAN SUBMARINE

ROME, July 2.—It is officially announced today that a French aviator has bombed and sunk the Austrian submarine V-11 in the Adriatic.

The V-11 was a new vessel and carried a crew of twenty-five men.

## BRITISH CLAIM DEFEAT OF GERMANS NEAR LA BASSE

PARIS, July 2.—The British are reported to have severely defeated the Germans in some close fighting along the La Basse and Bethune road.

Following a hot bombardment in the Ypres region the Germans advanced in mass formation, but the British fire proved demoralizing and the Germans retreated in confusion.

They stubbornly renewed the attacks, but latest dispatches describe the British as "holding the lines gallantly."

## CONSTANTINOPLE IS GAY DESPITE THE WAR

CONSTANTINOPLE, July 2.—Constantinople is leading a gay life despite the allies' attempts to create the

impression that a desperate situation exists here.

While the allies' fleets pound the Dardanelles and the Russians bombard the Bosphorus forts, twenty miles distant, the people of Constantinople calmly gather afternoons in Les Petrie Champs, the Municipal Gardens, the Cafe a la Turque and applaud the magnificent orchestra the same as in peace times.

When the war broke out Constantinople was terrorized. It is different now. The Turks are used to it.

The only military evidences in Constantinople are occasional companies of ragged recruits and batteries trundling through the streets. The public pays no attention.

## CROWN PRINCE'S ARMY TAKES FRENCH POSTS

BERLIN, July 2.—It is announced today that the Crown Prince's army of Wurtembergers stormed and captured Point Appu, in the Argonne forest.

The army advanced along a two-hundred-and-fifty-yard front and rallied after early reverses.

Despite a hail of shells they rushed and occupied important French works.

## NINETEEN MEN MISSING AS STEAMER SINKS

LONDON, July 2.—Nineteen men are missing from the steamer *Arcturion*, sunk by a submarine. A boat containing the nineteen men was headed for the French coast and disappeared.

## SAY LINER ADRIATIC NOT MARKED FOR ATTACK

NEW YORK, July 2.—White Star line officials today ridiculed the report that the liner *Adriatic*, enroute to England, has been marked for submarine destruction.

They deny the report.

They say that the *Adriatic* carries no munitions, of contraband and state there is no reason why the Germans should attempt to destroy her.

Only five Americans are among the 420 passengers, who include many British notables.

## 46,000 START WORK IN MUNITION FACTORIES

LONDON, July 2.—Lord Curzon today announced that Lloyd-George's appeal for a faster output of war munitions has met with hearty response.

During the week 46,000 skilled workmen have volunteered to serve in munition factories.

## GERMAN ARMY IS WITHIN 37 MILES OF LUBLIN

BERLIN, July 2.—Gen. Von Mackensen's army has penetrated into Russia from the Galician frontier to within thirty-seven miles of Lublin.

Vangorod, the fortress guarding the southern approach to Warsaw, is only forty miles northwest of Lublin.

The Germans are approaching the railroad connecting Warsaw, Vangorod and Lublin.

The War Office declares the Germans have crossed the Por and Lubna rivers west of Samosk and are threatening Krasnostaf.

On the left bank of the Vistula the Russians have evacuated.

South of Lemberg Gen. Von Linsingen's forces have stormed the Heights and chased the Russians.

Closing out our big stock of granite-ware at about Half Price. Young's Store, 305 West Fourth St.

# SISTERS WAR IN COURT OVER \$1000 NOTE

In Department Two of the Superior Court today, Judge W. H. H. Thomas is hearing the case of Anna G. Walters vs. Carrie A. Lovell. The plaintiff seeks a note amounting to \$1000.00 alleged to have been given in trees.

It is alleged in the complaint that the two sisters did not come up to the specifications called for in a contract between the parties.

At 2 o'clock this afternoon the two principals in the action had testified, as well as Ray O. Lovell and Mr. Mr. Boncasky.

Clyde Bishop is attorney for the plaintiff, and Leonard Evans of Anaheim and Hahn & Hahn of Los Angeles are attorneys for defendants.

The two principals are sisters.

**For Administration**

The will of Edna J. Rankin, who died on June 20, at Orange, was filed for probate today by Wallace Rankin of Orange, a son of the deceased. The estate in this state is valued at \$9000. Under the will real estate here is to be divided between two sons, Wallace of Orange, E. E. Rankin of Arlington, Tex., and a daughter, Mrs. Rebecca Pope, of Orange. The income from business property in Arlington, Tex., is to go to Susan Rankin of Orange, a daughter of the deceased.

C. D. Holmes has asked for letters of administration upon the estate of Mevin S. Jones, a cousin of the petitioner who died on May 19. The estate is valued at \$6000. Jacob E. Vail of Los Angeles is attorney for the petitioner. The widow, Helen A. Jones, of Orange, and several children are the heirs.

**Found Him Guilty**

The jury that heard the evidence against E. V. Espinoza yesterday afternoon brought in a verdict of guilty, in Judge Wess's court. The man was charged with felony embezzlement.

The evidence showed Espinoza sold Jose Mada a motorcycle for \$175, and that Espinoza borrowed the machine and did not return it. Espinoza's sentence was set for July 6, at which time his attorney, Steele Finley, will ask that the convicted man be given probation.

**Demurrer Sustained**

Orange county, represented by the district attorney's office, has won the first round in the fight that is being made in court by the Anaheim Sugar Company to break the organization of the Anaheim-Fullerton Road Division, formed for the purpose of assessing a district between Anaheim and Fullerton to raise money to pave the state highway between those cities full width, the state having already paved a strip in the center of the street. This morning Judge Thomas sustained a demurrer put in by the county to the complaint of the sugar factory. The demurrer alleged numerous grounds of weakness in the legal contentions brought up by the complaint. The plaintiff will have an opportunity to amend its complaint.

**No Tail Lights**

With Motorcycle Officers Ballard and Deenport back "on the job" again yesterday after a lay-off of about two months and a half, it was expected that these county officials would make numerous arrests for speeding. A number of arrests were made but the charges against the offenders were not for driving their automobiles in excess of the limit prescribed—they were for violating the laws in regard to lights.

M. M. Haviland and Nelson Dedrick were arrested for having no front lights. H. V. Newsom was arrested for a violation of the traffic law. Robert Weitbricht, R. A. Brady, A. G. Berry, Ralph Johnston and F. T. Ashley were arrested for having no tail lights on their automobiles.

**Sold at Auction**

This morning Attorney E. J. Marks of Fullerton bought two pieces of property at auction, the sales being under execution in cases in which he appeared as attorney. In connection with the judgment entered in the case of Brown-Dauser Company against Reed a house and two lots at Fullerton were sold for \$626, and ten acres concerned in an action of Sterns Realty Company against Davis for \$32.12. In the latter case the proceeds were gone through to clear a title.

**Marriage Licenses**

Gerald H. Griffin, 30, and Marie J. Stinger, 30, both of Santa Ana; Aurelio Saldana, 50, and Francisca Torres, 46, both of Santa Ana; Clarence Grigsby, 21, of Orange, and Mary J. McDonald, 17, of Huntington Beach.

Claude M. Allen, 20, and Silvia Kelly, 15, both of Santa Ana; Theodore R. Rimpau, 29, and Enid W. Stone, 22, both of Anaheim.

**In the Justice Court**

**Corner Cutting**

C. F. Spellmeyer, who is connected with the county highway department of Los Angeles county, objected strenuously this morning to paying a \$5 fine to Justice Cox. The man was arrested by Officer Pond on a charge of cutting a corner at Third and Main streets. Spellmeyer said that his machine was standing opposite the city

**Water Rates Decided**

Flat water rates of \$2 per acre annually for general crops, and a special annual rate of \$1 for rice lands have been decreed by the State Railroad Commission in its revision of the water rates of the Sacramento Valley West Side Canal Company operating in Glenn and Colusa counties. Varying rates of from \$1 to \$5 have been charged by the company.

**Is Accused of Fraud**

Raymond McCune, son of A. W. McCune, builder of the Cere de Pasco railway in South America and owner of the Cere de Pasco mines, is under arrest in New York charged with using the mails to defraud. Wealthy men of Wilmington, Delaware, invested in the Peruvian Exploration Company, the Maranon River placers and Peru Gold placers to the extent of \$400,000 because of McCune's representations. He was held in \$20,000 bail.

**Water Rates Decided**

Flat water rates of \$2 per acre annually for general crops, and a special annual rate of \$1 for rice lands have been decreed by the State Railroad Commission in its revision of the water rates of the Sacramento Valley West Side Canal Company operating in Glenn and Colusa counties. Varying rates of from \$1 to \$5 have been charged by the company.

**Veteran Banker Passes**

Charles R. Bishop, vice president of the Bank of California, San Francisco, is dead in Berkeley at the age of 93. He had been ill for more than a week.

hall, and that he had difficulty in starting it. When he did start it he reached the intersection before he got control, and he could not help cutting the corner. Moreover, Spellmeyer said there was no one coming along the street, and no one was endangered. Justice Cox could not see that Spellmeyer was guilty. The fine was paid.

## SETTLING CALIFORNIA ESTATES

By the will of the late Albert C. Billeke, of Los Angeles, one of the victims of the Lusitania horror, all of his estate, valued at \$2,000,000, is left to his widow and three children with the exception of \$10,000 which goes to his sister in San Diego. This if she does not contest the will, in that event she is to receive nothing.

The will of the late Matthew Slavin, who was a prominent contractor in Pasadena and Southern California, who died February 8 last, leaving an estate of \$500,000 to his family, is, it is said, to be contested by a Mrs. Ellen Slavin, of Albany, N. Y.

Final accounts of the administrator in the estate of Arcadia B. de Baker have been approved by Judge Rives in Los Angeles, who has ordered the estate, valued at \$7,158,225, distributed to the heirs. The inheritance tax amounts to \$428,985.

Wills of Mr. and Mrs. C. S. Campbell-Johnston, two victims of the Lusitania disaster, which dispose of property valued at \$240,000, have been filed for probate in Los Angeles, the husband's at \$154,000, the wife's at \$87,000. The Church of the Angels, Garvanza, is the chief beneficiary. Both wills contained the following provision: "We have each provided in our respective wills that in the event of our perishing at practically the same time in an accident at sea or otherwise when the question of survivorship between us may or might be in doubt it shall be deemed and assumed and considered our mutual desire and intention that the husband shall survive the wife."

**Telephone Supplanting Telegraph**

That the telephone is rapidly supplanting the telegraph in the operation of railroads was asserted at the annual convention of the Association of Railway Telegraph Superintendents, which was held in Rochester, New York, this week. It was estimated by Barney A. Kaiser of the American Telephone and Telegraph Company that of the 322,000 miles of railroads in the United States, 100,000 are operated by telephone. Direct telephone connection with San Francisco was demonstrated by the American Telephone Company during the sessions of the organization.

## Rates on Jitney Busses

Commissioner Egerton, of the State Railroad Commission, is quoted as saying that the jitney busses will not come within the purview of the new rate-fixing authority vested in the commission.

## FIRST 6 MONTHS OF YEAR SHOW GOOD RECORD IN BUILDING

| Month.    | No. Permits. | Amount.      |
|-----------|--------------|--------------|
| January.  | 28           | \$22,540.00  |
| February. | 43           | 19,654.00    |
| March.    | 29           | 33,685.00    |
| April.    | 33           | 33,685.00    |
| May.      | 26           | 18,977.00    |
| June.     | 34           | 33,510.00    |
| Totals.   | 193          | \$161,759.00 |

One hundred and ninety-three building permits were issued in Santa Ana during the first six months of this year, having a total of \$161,759.

This is regarded as a splendid showing in view of the general depression that has prevailed elsewhere during the past few months.

Santa Ana's building record during the first half of this year compares more than favorably with the records made by other cities of the same class, or even larger.

May was the lightest month in building, with April the largest. The month of June was only about a hundred dollars short of the amount of permits issued in April.

The permits taken out so far this year are principally for a great number of small improvements, including a great number of the smaller bungalows, having from three to six rooms.

**Recent Permits**

- To J. R. Brown, garage, at 1230 West Fourth street; \$40.
- To J. H. Rankin, with C. M. Jordan contractor, 8-room addition, at 815 Spurgeon street; \$2610.
- To I. D. Annis, with G. G. Carr contractor, repairs, at 615 Cypress avenue; \$100.
- To Mr. Goldstein, repairs, at 414 North Main street; \$40.
- To Rosa Lock, with Dixon Limbird as contractor, auto shelter, at 301 North Sycamore street; \$40.
- To A. J. Riatt, milk house, at 1008 West Highland street; \$50.
- To Joseph Dismukes, 7-room dwelling, at 618 Baker street; \$2500.
- To George L. U. ash, 3-room dwelling, at 1727 North Spurgeon; \$1650.
- To Spurgeon Realty Company, with C. McNeil contractor, stable, at 106-108 North Sycamore street; \$750.
- To T. H. Fowler, 4-room dwelling, at 120 Sixth street; \$800.
- To T. H. Fowler, 3-room bungalow, at 720 West Sixth street; \$600.
- To Jens Rasmussen, garage, at 1008 and Garfield streets; \$80.
- To Spurgeon Realty Company, with J. W. Elliott contractor, improvements, at 210 West Fourth street; \$50.
- To F. J. Biveau, garage, at 1410 West Fifth street; \$50.
- To Oscar Wilson, 4-room dwelling, at 940 West Pine street; \$500.

Santa Ana Painless Dentists, 102 1/2 East Fourth St. Main 252.

## WONDER WALNUTS AND ROSES ARE GROWN BY GARDEN GROVE WOMAN

One Blossom Measures Six  
and a Half Inches In  
Diameter

Garden Grove News: Mrs. A. G. Blom has in her front yard some wonderful rose bushes which produce the largest roses on record for this season. The beautiful blooms are from five to six and one-half inches in diameter. One rose was of a lovely red. It grew on a white bush and had a green stem.

The stem and bloom are now on display in a glass jar which, though large, is not large enough to display the exhibit properly. This one was six and one-half inches in diameter. Many there were which were five inches and over.

There is also a walnut tree on the Blom ranch which is a wonder. It has three or four times the ordinary crop for the season. The nuts are in clusters of from four to fourteen on a stem. The tree is evenly loaded with such clusters. The largest has fourteen nuts and is so heavy it has to rest against a bough below for support.

All the trees in the sixteen-acre grove are heavily loaded. In some instances limbs four inches in diameter have been broken from the trunk under the weight of growing nuts. Great care has been taken in fertilizing and irrigation, which may account for the unusually heavy crop at this ranch.

## VALENCIA MARKET TO BE GOOD IN FALL

Orange News: The McPherson Heights packing-house was closed temporarily with the cleaning up of the June pool. It has not been decided whether to put out a July pool, but favorable prices now prevailing may induce the association to ship a small July pool.

The June pool consisted of forty cars which brought good prices and brought the total number of Valencia shipped by the association this season up to sixty-five cars. There remains in the McPherson Heights orchards about 125 cars which will be held for the late markets, going forth in September, October and November.

"The outlook for the late market is most promising," said Manager Post. "There are less Valencias to go forward than was the case last season and in my opinion we will make a fine showing in these markets."

## ORANGE ACREAGE ON INCREASE AT GROVE

There are about 100 acres in oranges within a mile each way of the Garden Grove postoffice, and within the territory tributary to that place the acreage is several times that much, is the boast of the Grovites. Many of the growers are desirous of an organization at this time by which a. the benefits of co-operation in buying supplies and solving problems of producing the crop can be had. It seems to be the feeling that the packing house will not be needed at this time, but that it can be built whenever the demand comes.

## NEW ANAHEIM HOTEL SOON BE UNDER WAY

Anaheim Gazette: Charles Conliff has the contract for the masonry and cement work in the new Ziegler hotel, work upon which soon will begin. The old structure has been razed to make way for the modern hotel structure. The fact that Contractor Conliff has charge of the brickwork it is a foregone conclusion that the building will be first class in every respect. The building will be three stories, and perhaps four, but in any event a magnificent addition to that rapidly growing section of the city. The plans are beautiful and when completed the hotel will be one of the finest in Southern California.

**CITRUS HOUSE IMPROVES**  
Placentia Courier: The Placentia Orange Growers' Association has installed recently a blower, two washers, a dryer and a box-making machine and has brought the plant to the highest state of efficiency and low cost of output.

**PROGRESS**  
Placentia Courier: Placentia is still progressing. Property owners on Center street have decided to have this street graded and oiled in the near future. This will put practically every street in town in fine condition.

**BUILDING LARGE HOUSE**  
Garden Grove News: At the Schlund ranch northeast of town a fine new two-story house is being erected. It will be finished in modern style and will be a good addition to that neighborhood.

## ORANGE COUNTY IS THIRTEENTH IN VALUE OF FARM LAND

According to figures compiled by the agricultural department of the government. Orange county ranks thirteenth among all the counties of the United States in the value of its farm property, and twelfth in the total value of its farm products. Considering the insignificant area of this county in comparison with the other leading agricultural counties of the country this is a remarkable showing. The total value of farm property in Orange county is given by the government as \$64,357,852, and the products for 1914 aggregate \$6,176,337. Los Angeles county ranks first, its farm value being fixed at approximately \$200,000,000, and its farm products at \$14,720,884. The second agricultural county in the nation is McLean county, Ill. Six of the fourteen ranking counties are in California, being Los Angeles, Tulare, San Bernardino, San Joaquin, Santa Clara and Orange.

Twenty years ago Lancaster county, Pa., was the foremost agricultural county in the United States, but today it ranks seventh in the value of its farm property and second in the value of its product. Its property is valued at \$84,426,907 and its 1914 product at \$13,957,588.

## BROADWAY, ANAHEIM TO BE IMPROVED

Anaheim Herald: The paving of Broadway from East street to West Anaheim was under consideration by the city council at a recent meeting. Among other ideas proposed is the scheme to have a parking in the center of the street sixteen feet wide, in which will be planted trees and flowers. This will leave a space of twenty-two feet in width on each side of the open space for the trees for traffic. This space of twenty-two feet on each side will be paved and a curbing about four inches in height will be made around the parking to keep the ground off the paved street and allow for better irrigation of the trees to be planted.

This stretch of parking will be about 8500 feet in length and the saving for the property owners on Broadway will be about \$17,000.

## PROPOSES TO PUT IN ORANGE JUICE PLANT

Orange News, July 1: A proposition for the location of a factory here for preserving orange juice will be presented at the Orange Commercial Club tomorrow evening by H. Levitt of Riverside.

Mr. Levitt has been manufacturing the product on a small scale and desires to expand the industry. He claims to have proof that his method of preserving the juice is a successful one and has been endorsed by competent chemists.

President Hagen of the Commercial Club has invited all interested in the project to meet at the club rooms at 7:30 p. m. tomorrow evening and meet Mr. Levitt.

## 1200 ACRES BEANS IN BUENA PARK SECTION

Stanton Optimist: There will be a large bean crop on the mesa this year in the Buena Park district. The estimated acreage is between 1000 and 1200. One grower alone, C. L. C. Comber, has over 300 acres in beans. A. Nelson, Buena Park shipper, marketed twenty-five carloads of beans last year, and it is said he will ship at least forty cars this year. The crop is mostly of the blackeye variety, which the growers sell at about three and one-fourth cents a pound, at a good profit.

## FRUIT COMPANY WILL SHIP FROM ANAHEIM

Anaheim Gazette: The Randolph Fruit Company is establishing a plant for the packing and shipment of oranges from Anaheim. The company has leased a building from T. F. J. Boege and is having it remodeled to suit the business. This company has for several years shipped oranges from northern Orange county, but has never before had a plant in Anaheim.

**BUILDING BUNGALOW**  
Placentia Courier: Elvion Basten is busy hauling boulders from Santiago creek for the erection of a very attractive and substantial bungalow. The bungalow will be built of stone and cement and will be of a style of architecture similar to the fine home recently completed by Arthur Edwards.

**4000 FEET OF PIPE**  
Garden Grove News: Jack Jentges has just completed laying 4000 feet of 12-in. irrigating pipe on John Warner's ranch near Bolsa. It took three weeks to do the work. The water supply is excellent. There are 125 inches of water distributed by this system.

# Vacation Goods at Special Prices —SATURDAY—

Why pay more? If you will compare these prices you will find the Rowley Drug Co. will save you money, not on a few items or just once in a while—but all the time.

# Balboa Palisades

(Formerly Corona Del Mar)

## Beach Residence Property De Luxe

- A mile of ocean and bay frontage.
- Elevation 80 to 130 feet above sea level.
- Soil like a nurseryman's garden.
- Palisades Tavern just completed,—the finest resort hotel on the coast.
- Much of the street work already in.
- Sewers and water mains provided.
- Great improvements in progress.
- Five mile private automobile road to Santa Ana boulevard now opened.
- Beautiful homes already built; more will be built soon.
- Beautiful resubdivision in progress—gardens, parks and drives.
- Every healthful amusement—boating, fishing, sailing, riding, tennis.
- Some lots now ready and at get-acquainted prices.
- Special inducements to those who build now—come early.
- See the maps, see the lots—see the photographs, see the Tavern, and see us about it.
- Come down Saturday, Sunday and Monday.

**F. D. Cornell Company**  
Owners.

On the property, Balboa Palisades, or  
318 Investment Bldg., Los Angeles.

## GIANT NEW PUMP AT CITY PLANT IS PLACED IN OPERATION

Erected at a cost of a total of \$30,000 and having a capacity of six million gallons of water each 24-hour day, the largest pump in Orange county and one of the largest in California has been put into operation at the Santa Ana municipal water plant.

Proving that the pump was constructed with care and erected with skill, the giant piece of machinery has been working steadily ever since it pumped its first gallon of water.

**Weights 112 Tons**

Sixty days were required to put the machine in place. Its installation was supervised by the manufacturers, the Allis-Chalmers company, and by Water Superintendent Ransom Reid.

The total weight of the huge pump is 112 tons, the flywheel alone weighing twelve tons, the compressor frame twelve tons and the compressor ten tons.

Five freight cars were required to transport the fifty pieces composing the pump.

**Cost Is \$30,000**

A new oiling system and other details have brought the original cost of \$20,000 up to \$30,000.

It is said that the next largest pump in Orange county is one at the municipal water works weighing sixty-five tons.

The smaller pumps at the water works are to be used auxiliary to the new pump, according to Superintendent Reid.

## LEMON BY-PRODUCTS PLANT TO LOCATE AT CORONA

Los Angeles Times, July 1: Corona was chosen as the location for the manufacturing plant of the Exchange By-Products Company, a co-operative concern, capitalized at \$100,000, composed of lemon growers affiliated with the California Fruit Growers' exchange, at a special meeting of the directors in this city yesterday. It was at one time thought a possibility that the plant would locate in Santa Ana.

An offer of a site and building, valued at \$10,000 by the lemon growers of Corona, coupled with this city's location in the heart of a growing lemon-raising belt, threw the balance in favor of the Riverside county municipality in the face of a long list of applicants for the new plant.

The directors of the Exchange By-Products company also announced the selection of S. L. Ames as manager of the plant. He has had experience in similar enterprises in Sicily and is the patentee of a process of manufacturing lemon emulsion. This emulsion will be produced by the company.

About \$25,000 will be spent immediately, according to members of the board of directors, in equipping the new plant. It is planned to start operation in about three months. The site is on Santa Fe rails, at the foot of Jap street.

The Exchange By-Products company was organized about six months ago to provide a safety valve for the lemon industry of the state. Since the protective tariff was reduced on lemons there has been a constantly increasing importation of Sicilian fruit. This has resulted in low markets at times.

On the contrary, the demand for citrate of lime, lemon oil, lemon emulsion, and other derivatives of the fruit is increasing. The plant is to consign surplus fruit to the reducing plant when prices are low and so assure a normal profitable return on it.

A unique feature of the new venture is that payment for fruit will be gauged by what it earns. The stock in the concern is distributed among the membership of the California Fruit Growers' exchange in proportion to their lemon shipments through that organization.

## POULTRY MARKET GLUTTED: HENS CHEAPER THAN EVER BEFORE

Why kick at the high cost of living? Why not eat poultry?

Chickens are cheaper at the present time than they have been for many years.

Several days ago the poultry men were getting only 10 cents a pound for broilers, which is said to be a lower price than has ever prevailed in this section.

At present broilers are bringing 13 cents.

Light hens, those weighing not over four and a quarter pounds, are bringing nine cents.

### Why?

There is one great reason for this lowness of prices and that is, the market is glutted.

The market is overstocked because of tremendous shipments which have been coming into Los Angeles from the middle west during the past few months and because of thousands of the smaller poultry raisers disposing of their flocks.

In Kansas, Nebraska, parts of Texas, Wyoming and other mid-west states poultry can be raised at rates far below those in Southern California. The hens can roam wide stretches of cheap land. Food is cheap. As a result the growers in that section dress their product and ship it to the coast in cold storage.

### Feed Is High

Great numbers of owners having small flocks in Southern California have sold their hens owing to the high cost of feed. Wheat was selling at \$3 per hundred pounds last spring, a price which made the raising of poultry prohibitive.

The owner of a small flock raises merely enough chickens to keep him supplied with fresh eggs and an occasional broiler for the table. But when food for his hens is high, he figures that he can buy his eggs and broilers more cheaply than he can produce them.

As an indication of how glutted the Los Angeles market is at present it need only be said that several days ago the Los Angeles wholesalers shut off the buyers in the smaller cities entirely. The wholesalers are buying again now, but at very low prices, of course.

### Better Times Coming

Local dealers are confident that conditions will change for the better within the next few months.

Poultry feed will get cheaper and the influx of cold storage poultry from the middle west will come to a halt, as no poultry is dressed for shipment to the coast during the summer and early fall.

Ask for descriptive booklet.

## HEWES PACKING HOUSE TO HAVE BIG ADDITION BY SEPT. 1

The need of increased packing and storage space resulting from young orchards starting to bear is being met at the David Hewes packing house by the erection of a big addition to the present buildings. The work will probably be completed by September 1.

The cost of the addition is estimated at a figure between \$10,000 and \$12,000. J. S. Law, a local teaming contractor, has a force of men and teams at work on the excavation. A large part of the dirt thus removed will be hauled to Hewes Park for improvement under way at the famous beauty spot. The general contract has been let to George Preble of Santa Ana who is completing plans for the building.

The new addition will be joined to an old concrete warehouse, directly opposite the present packing house with which it will have drawbridge connections similar to those of the concrete building. The addition will be a frame structure, measuring 84 by 144 feet. A full basement will be under it.

Though there will be no pressing need for haste as the orange crop will be pretty well cleaned up by the time the building is finished it was thought advisable to build the addition at the present time. Weather conditions are more favorable and moreover there will be urgent need of the added space by the time the thick of the next packing season is at hand as many of the young trees of the Hewes ranch are just coming into bearing and the capacity of the packing house was already taxed in handling the crop last season. The Hewes ranch consists of 700 acres of which 500 are set to lemons and 200 to Valencia's. Fully half of the trees are just starting to bear, so the crop will be increasing each year.

The new addition will be ventilated both in the basement and first floor for lemon storage and will be used exclusively for that purpose. The main packing house will then be devoted solely to packing operations.

—Ladies' Suits to measure, also alterations. Chas. Land, 306 Bush St.

### Government Costs Money

(From L. A. Financial News.)

Los Angeles people who have been led to believe that the cost of government of the city in which they live cost about \$6,000,000 per year were appalled this week when the Municipal Efficiency Commission warned the taxpayers that the estimated requirements of the budget for the year 1915-16 aggregated the enormous total of \$35,000,000, while the estimated revenues were only \$32,600,000. That the budget will have to be pared goes without saying. Here is a general summary of the budget estimates for 1915-16, showing estimates of expenditure and available funds, as prepared by the Municipal Efficiency Commission:

Under the head of expenditures from bond funds are the following items:

|   |                 |
|---|-----------------|
| Schools                                   | \$3,450,000.00  |
| Power bureau                              | 6,382,000.00    |
| Harbor                                    | 1,306,000.00    |
| Total                                     | \$11,138,000.00 |
| Requirements for Current Purposes         |                 |
| General fund (current municipal expenses) | \$8,563,428.69  |
| Interest and sinking funds                | 2,940,411.00    |
| Schools                                   | 4,470,000.00    |
| Street improvements                       | 5,382,500.00    |
| Water bureau                              | 1,747,600.00    |
| Harbor                                    | 110,000.00      |
| Miscellaneous trust funds                 | 213,000.00      |
| Total                                     | \$23,818,939.69 |
| Grand Total                               | \$34,956,939.69 |

Balance from previous year: \$3,450,000.00  
Power bureau 1,365,000.00  
Harbor 1,306,000.00  
Total \$6,115,000.00  
Available bond funds from sales—Power bureau 5,918,000.00

Balance from previous year: Interest and sinking funds \$80,000.00  
Schools 350,000.00  
Water bureau 12,000.00  
Harbor 20,000.00  
Total \$462,000.00

Current revenues—General fund, current municipal expenses \$5,775,476.00  
Interest and sinking funds 2,940,411.00  
Schools 4,445,000.00  
Street improvements 5,382,500.00  
Water bureau 1,747,600.00  
Harbor 90,000.00  
Miscellaneous trust funds 213,000.00

Total \$21,043,987.00  
Total estimated available \$32,638,987.00  
A "reserve fund" of \$1,300,000 is available for advances to the general fund during the period from July 1 to November 1, when tax payments become due. This estimate shows:

Deficiency in general fund \$2,727,952.69  
Surplus in interest and sinking fund 80,000.00  
Surplus in school fund 325,000.00  
Surplus in water bureau 10,000.00

### SON'S LIFE SAVED

Grateful Mother Makes Public Statement

Remarkable letter concerning Foley's Honey and Tar Compound as a quick relief for coughs and colds.

"It saved our son's life," says Mrs. Edna Cramer, in speaking of Foley's Honey and Tar Compound. "Of this I am sure. Of all cough remedies we ever used, Foley's Honey and Tar Compound is far ahead of them all. It has been our faithful friend for several years and we rely upon it for the quick relief of all our coughs and colds. It never fails and we recommended it to all our friends. We thought he would surely die from strangulation. Foley's Honey and Tar Compound completely and absolutely cured him. We know it and will prove it to anyone interested."

Do you know the soothing, relieving benefits of Foley's Honey and Tar Compound? You ought to. There is healing in every dose. It spreads a cool coating over the rough inflamed throat—stops the racking cough—does all this in a natural way, containing no opiates and nothing harmful.

Good druggists are glad to sell Foley's Honey and Tar Compound because they know it is reliable and successful. Refuse substitutes. Rowley Drug Company

## DEPOT FOR VILLA PARK: AGENT IS APPOINTED AND ON THE JOB

Residents of Villa Park and vicinity are congratulating themselves on the fact that the Southern Pacific company has appointed an agent at the station and that an up-to-date depot is to be built in the immediate future. H. W. Watterman, of Orange, secretary of the Villa Park Vegetable Growers' association, has been appointed to the position. His headquarters will continue at the Vegetable Growers' packing house until the time when the proposed new depot will have been completed.

For many years the people of the immensely productive Villa Park section have been exerting every effort to induce the Southern Pacific to appoint an agent at the station. By rea-

son of the fact that Villa Park had no agent, nor anyone to handle freight or baggage for the railway, all incoming freight had to be prepaid, which worked great hardship on the Villa Park people. It was even impossible for those leaving Villa Park to check baggage from the station.

The appointing of the agent, who assumed his new duties yesterday, fills a long-felt want. Villa Park ships a great quantity of vegetables and other produce. The section shipped a total of 750 cars of citrus fruits last season. The appointment of the agent and the announcement that a new station is to be built are expected to stimulate commercial activities at Villa Park in a marked degree.

## Facts About California

(From L. A. Financial News.)

Promise of an unprecedented crop of Oranges is general for the entire foothill district above Placerville and there are no sections of the orchard area where there is a lack of prospect for a generous crop. Shipments of Valencia Oranges from the Lindsay district to date have totaled 241 cars of fruit. The yield is estimated at 700 cars.

Estimates of the total shipments of citrus fruits from Redlands district for the season 1914-1915 are 4500 to 6000 cars. Practically all of the navel orange crop about Riverside has been packed.

Dairying is rapidly superseding all other farming industries in the section west of Salinas, across the Salinas river. Water has done it. The old irrigation canals built by the mission padres to bring water from the Arroyo Seco river for the Soledad mission lands are now flooding hundreds of acres. Six cutting of alfalfa are made and the white carrot is largely grown.

During the coming summer 12,000 horses and cattle and 25,000 sheep will graze on El Dorado national forest, permits having been issued for that number. In the

Caldor district will be grazed 197 cattle and horses and 4950 sheep; in the Georgetown district, 3363 cattle and horses and 7165 sheep; and in the Pacific district, 3985 cattle and horses and 12,325 sheep.

**Live Stock and Dairy Interests**  
The formation of a dairy and hog association as adjuncts of the Glenn county farm bureau is an immediate prospect. It is proposed to list all farmers in each center who have milk cows and keep hogs and get such farmers to sign up for the formation of an association.

Quarantine orders have been published against a number of ranches in Tulare county where hog cholera has been found and where running streams flow through the property. It being stated that by means of water in irrigation ditches and creeks the disease is often spread over a wide area.

A buyer representing the French government is combing the Salinas valley in Monterey county for horses. The animals are to be used in the light artillery and the requirements are very high. Only sound, good actioned horses of 1200 pounds are being sought.

Organizations of a board of control of the Hog Raisers' Association and of a committee of the Dairy Association to secure cows for testing are activities sponsored by the farm bureau of Yolo county.

Thousands of head of cattle passed through Nevada City this week on their way to the mountains for summer pasturage. At one time there were \$65,000 worth of cattle strung along the principal street.

All sorts of activities are starting up with a rush in Sierra county just now. Hundreds of head of horses and mules, wintered in the valleys are being brought in and freighting will soon be in full swing.

At the new dairy just opened near Antioch, Contra Costa county, 500 cows are being milked.

Paso Robles almond growers declare that the cool weather has not injured their crop and that the prospects for an immense yield was never better. Hot ripe olives is the latest method of serving this fruit in California. It was tried out by Fair Oaks growers on a party of 200 boosters from Sacramento who pronounced them excellent and most toothsome.

# EXPECT WALNUT CROP TO BREAK ALL RECORDS THIS SEASON

Already boasting of the largest walnut grove in the world and the largest shipping point for the product on the globe, Orange county this season expects to have the largest nut crop in its history.

Although the walnuts will not begin to ripen until early September, indications now are that the yield will be at least 25 per cent above normal, which will mean receipts of more than 2,000,000 to the growers.

The clusters on the trees are heavier than ever before in the history of the crop. Samples sent to Mrs. Winifred Bryan, representative of Orange county in the Chamber of Commerce, at Los Angeles, are attracting wide attention, and Secretary Wigdorn is having them preserved to establish a new standard for the future.

The hundreds of eastern sightseers who daily visit the chamber exhibit are so attracted by the Klondike nuts that many of them offer to leave money to pay for a small shipment when the 1915 crop is in. These are the largest nuts grown, but are limited in quantity.

Four new varieties have been propagated in recent years, which combine the advantages of thin shell, large size and rich meat. They bear about six pounds to the tree in the fourth year.

That Southern California has material aid from nature in its nut crop is indicated in the time trees require to mature. In France it is thirty years from seed to bearing, while in this section only ten years are required.

**YOUR COUGH CAN BE STOPPED**  
Using care to avoid draughts, exposure, sudden changes, and taking a treatment of Dr. King's New Discovery, will positively relieve, and in time will surely rid the irritation, checks your cough, which stops in a short time. ## Former Senator Clark an Optimist

"In the three years before the war the production of copper in the United States averaged 1,200,000 pounds annually. Germany took half of it, or as much as all the other nations of the world put together, exclusive of the United States," declared former Senator W. A. Clark, copper magnate and president of the Salt Lake railway, who was a Los Angeles visitor this week. Continuing, he said: "That Germany had been hoarding copper for the last three years before the outbreak of hostilities is, I believe, proven by these figures, for its industries, under no circumstances, could have absorbed such an enormous supply of the metal."

There is apt evidence that, when Germany halved the United States copper supply with the rest of the world, it had war in mind, for, since the outbreak of hostilities, the demand for copper has reached record proportions, in spite of the fact that the demand for copper in the constructive industries of this country has fallen off and Germany is not in position to import.

The demand for copper is now the greatest in history. It will run 1,500,000 pounds for the year. Most of it is mixed with zinc and rolled into a wire, the size of a cartridge, for the allies. War has built the copper market and made zinc so much in demand that the waste heaps of the Broken Hill mine-district of Australia are now being worked over for the small quantities of this metal that they contain. To keep pace with the demands we have just completed a plant at Clarkdale, near Jerome, Ariz., costing several hundred thousand dollars and with a capacity for 6,000,000 pounds of copper a month. I believe there is an assured market through new customers. Copper has advanced from 11 to 20 cents, copper wire from 14 to 15 cents. A normal price would mean a steady business, but as long as the war continues copper will be in immense demand.

**General Business Good.** It will improve. It cannot help doing so, for, while the rest of the world is at war, we are surely strengthening our hold on the markets of South America, Scandinavia and other portions of the globe. Because of the large demand for wire in the electrical industries of Scandinavia, which were heretofore dependent on Europe for their supply, I am now building a new brass plant in connection with the wire works at Elizabethport, N. J. Through the use of my department, I believe, more of sentimentality than ought else, the supplies that we are selling to the allies are making business good. It could not be otherwise. For instance, it has been estimated that we have sold

"There is no reason for pessimism in business or politics," President Wilson is taking the time, and there is every reason to believe that business will soon be better than ever, and that when the conflict does end, our country will be an object lesson to the world of sanity, sober devotion to safe principles, both of government and of international relations."—Former Senator W. A. Clark.

500,000 horses to the belligerents and more than \$100,000,000 worth of locomotives, just to mention a few things. With the greatest wheat crop in history, and half the world locked in deadly struggle, it must follow as a matter of course that the United States should feel increased impetus toward prosperity.

South America and Spain, which is another coming buyer, have always wanted credit. London has given a round hand, but has always charged a good round interest. The war will learn through this, that they can buy cheaper here, and that depending on London for credit is often made here, and will continue to be after this war is over. I believe that this country is entering on an era of unprecedented prosperity.

**Talking About the War.** "The war, in my opinion, has just about begun and will continue probably for a year or two more. It is a desperate war, for every participant is practically fighting for existence. War is a matter of power and resources. These the allies have more than the Germans. I cannot see how any other event can occur than the final victory of the allies. None of the warring nations can stop now to fight the rest, so it would seem that the war must be fought out to the bitter end. Aside from war as a barbarous institution, undesirable at any time, Mr. Clark frankly remarked that a war with any of the belligerents would rob this country of opportunities of trade expansion whose magnitude we are just beginning to recognize.

**Speaking of Politics.** "Mr. Bryan? There does not appear to have been any other reason for his resignation than his thinking this an opportune time to sever his relations with President Wilson. If Mr. Bryan expects the people to come shouting to his side he is mistaken. He has done a very foolish thing in resigning and he has done a worse thing in talking about it. I supported him three times for president, but I feel now that the country is to be congratulated on his not having succeeded."

turing on September 1, which the \$11,000,000 of the new financing will provide for. The notes were sold at 95 1/2, the one, two and three-year 6 per cent securities taken by a New York banking syndicate headed by J. P. Morgan & Co. and Kuhn, Loeb & Co. last fall, when the necessity of meeting approximately \$8,000,000 of New York city maturities abroad in the face of adverse exchange rates presented considerable difficulty. The amount of fifty-year bonds to be sold by the city on June 23 is smaller than the amount of any other securities sold in any year since 1906 with the exception of 1913, when \$15,000,000 bonds were sold. Last year \$65,000,000 50-year 4 1/2's were sold on April 15 to Kuhn, Loeb & Co. and Wm. A. Read & Co. Previous to that the amount of fifty-year bonds sold was \$15,000,000 4 1/2's in 1912; \$65,000,000 4 1/2's in 1912; \$60,000,000 4 1/2's in 1911; \$50,000,000 4 1/2's in 1910; \$50,000,000 4 1/2's in 1909; approximately \$65,000,000 4's and 4 1/2's in 1907 at three sales, and \$20,000,000 4's in 1906. The total amount of this year's permanent financing, including the \$25,000,000 4 1/2 per cent fifteen-year serial stock, is greater than in any previous year.

## INFORMATION ABOUT BONDS

From the Los Angeles Financial News.

Los Angeles City Council has purchased \$392,047.50 worth of power bonds from interest and sinking funds. The bonds were of the \$6,500,000 issue of May 8, 1913, which provide for the construction of power plants in San Francisco canyon, and the construction of a high voltage power line from there to the city. From the purchase a loan of \$100,000 by the water department is to be repaid by the power bureau, leaving a balance of \$292,047.50 to be used by the water department in prosecuting the power plant construction. The action of the council which allows municipalities of the class of Los Angeles to buy its own bonds from surplus funds, taking one-fortieth of an issue of 40-year bonds, by paying the face value and accrued interest each year.

Kingsburg's high school bonds have been sold to the state at par, the money to come from the state's industrial accident commission's funds. This solves a problem the Kingsburg high school trustees have been wrestling with for some time. The original highest bidder for the bonds who were to pay a premium of \$2,300 on the bonds, on looking into the proposition, finally turned it down on the technicality that the district was in three counties, therefore the funds of the district must come from three counties and yet be handled by one county, and they feared some future tangle on this account. The state itself was not in so good a position to object to the bonds on this score, against one of its own laws, but at the same time, not being in competition with other bidders for the bonds, would not offer above par for them.

Turlock has sold \$16,000 bond issue, the proceeds to purchase a public park. The bonds are 40-year serials and were advertised to bear 6 per cent interest. The bids were as follows: By the Witter & Co., \$1329 premium; E. H. Rollins & Son, \$909 premium; Lumbermen's Trust Company, \$1010 premium; or \$160 premium if the rate of interest was changed to 5 1/2 per cent, the bidder to bear the cost of lithographing the bonds, which would make the premium practically \$235. The council decided to change the rate of interest to 5 1/2 per cent and the bid of the Lumbermen's Trust Company was accepted.

The bonds of school district number one, Maricopa county, Arizona, in the sum of \$135,000 have been sold by the county supervisors. James N. Wright & Co. bid par, accrued interest, a premium of \$28 and delivery to be made in Phoenix, Sutherland & Co. bid par, accrued interest and a premium of \$217, but asked delivery in Kansas City.

City of Dunsmuir bonds for \$25,000 for street improvements have been sold in San Francisco. The bonds bear 6 per cent interest. The city trustees will now rush the work of paving the streets that will form a link in the state highway.

Of the \$672,000 Kings county bonds recently offered by a syndicate composed of N. W. Halsey & Co. and the Angelo and London Paris National Bank of San Francisco, it is announced that more than half have been sold.

The Board of Supervisors of Tulare has sold the \$8400 issue of school bonds of the Cutler district to the First National Bank of Tulare for par, accrued interest and a premium of \$350.

**Proposals for Bonds.**

N. W. Halsey & Co. are offering \$2-

**DON'T USE SOAP ON YOUR HAIR**

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

For the first time New York city will, on Tuesday next, sell serial securities when the comptroller of the city will offer \$45,000,000 4 1/2 per cent corporate stock of the City of New York, payable June 1, 1915, and \$25,000,000 4 1/2 per cent corporate stock, 15 year serial, maturing annually from June 1, 1916, to June 1, 1930. The city has \$57,000,000 of one-year 6 per cent corporate stock notes ma-

He is wishy-washy, and cannot have the support of the right thinking people of the nation.  
"The cry of the 'peace at any price' people is a danger to this country. Our lesson has been taught us; we should be ready to defend ourselves and to command peace and righteousness in international relations. Without being a military nation we require a system of military training which will make every male in the country available in time of need and capable of being turned quickly into a soldier. The land funds it takes about five months to train recruits. We have 100,000 men in twenty-four hours, but we need something of the kind. We have a navy, but nothing like require large, and particularly do we need supplies of submarines. Denial of the world with Germany show that the world is likely to witness a revision of the international laws of war. I believe it will not permit this to be done where it imperils our own people or the rights of neutrals."

"President Wilson has acted admirably in the war, and the best people of the country stand with him. His stand in every case, I believe, has been well taken. If war comes, which I hope it never will, I am convinced that Americans to a man will stand and shoulder to shoulder behind the president."

"I do not believe we will be involved in the war, but if we should be we must acquit ourselves well and honorably. If we are not involved, our growing prosperity will increase another year, and such as we have seldom known for development and probable dominance in the business of the world."

**Regarding Salt Lake Road.**  
"We have entered into an agreement with the Santa Fe for equal trackage rights through the Cajon Pass, which ends our need and our own way through these mountains. This arrangement will permit us to operate our through trains from Riverside to San Bernardino on the Southern Pacific tracks."

"As to building to San Diego I cannot say now. San Diego is a good city with only one railway; but there is a lot of unproductive country we would have to pass through. We have had suggestions from prominent people of that city about building there and well, all I can say is that the matter is receiving consideration."

"More than 120 miles of other railroad will be re-laid with ninety-per cent rails this year and fifty miles of line will be put under block signal, thus making high-class thoroughfare from east to Los Angeles."

Los Angeles City Council has purchased \$392,047.50 worth of power bonds from interest and sinking funds. ## SPENDER OR INVESTOR WHICH?

All Humanity is divided into two types—the Spender and the Investor.

The Spender, following his own inclination, lets his money slip through his fingers and never gets very far from the bottom of the ladder.

The Investor, having lived within his income, and by self-denial saved part of his earnings, is on the road to the top.

Which type is the most honorable?

All of us have a moral duty to ourselves, our families and society to perform it. A savings account in this bank is a sound investment because the principal is safe and the interest paid promptly. And one dollar will open an account. 4 per cent interest.

# A \$5 Illustrated Bible

## for Everybody! Complimentary Presentation

A great statesman said: "No library is complete without two certain books—the Bible and Shakespeare. Hardly a quotation in literature that is not taken from one of these books."

Every home needs a Bible, and one of convenient form. To appreciate this great book it does not necessarily mean that one must be a church member or a religious man or woman, but it should be available for every one and often referred to, and often read here and there as the most interesting of all books, as the book under the teachings of which the wonderful development of civilization has been accomplished. It matters not how many Bibles you may have, you will also need this ILLUSTRATED BIBLE, which illuminates, i. e., "throws light upon," the particular text selected for illustration, and is beyond doubt the most beautiful edition of the Bible that has ever been published.

Everybody in Santa Ana will be benefited by the exceptional educational presentation undertaken by the Santa Ana Register. Here is an opportunity for every reader of the Register to possess this illustrated Bible (Protestant or Catholic) with practically no effort.

### For Every Reader of the Santa Ana Register!

Heretofore the word "illustrated," as applied to a Bible, meant just a few allegorical "pictures" of Biblical events taken from any source, and conveniently placed in any part of the book, merely as embellishment inserts, but not directly alongside and explanatory of the verse intended to typify or make plain; but our publishers at an outlay of \$50,000, prepared accurate illustrations descriptive of the verse which they accompany, placed directly next to the verse of the scene described—the only place it can be looked for or found quickly, the only place the illustration is a help to you—making this the FIRST and ONLY complete ILLUSTRATED Bible.

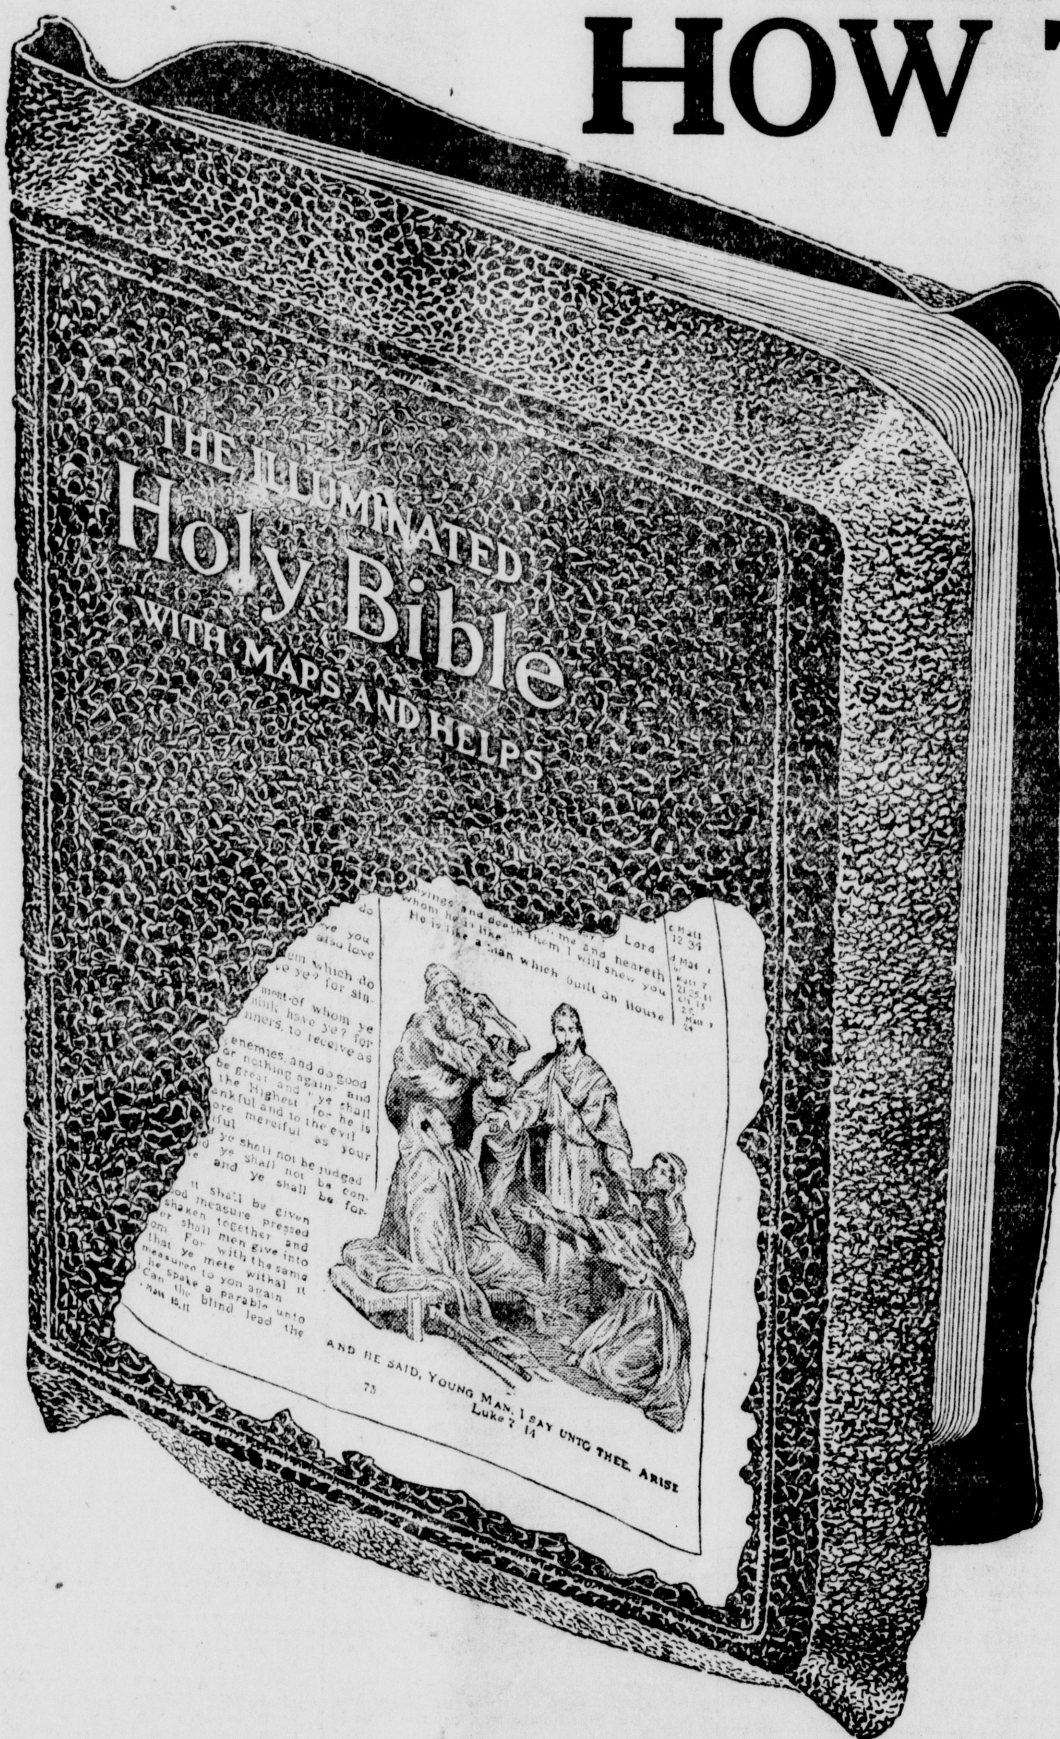

#### Your Choice of These Books

##### Magnificent Illustrated \$5 Edition of the Bible

(like illustration) is bound in full flexible limp leather, with overlapping covers and title stamped in gold, with numerous full-page plates in color from the world famous Tissot collection together with 600 superb pictures graphically illustrating and making plain the verse in the light of modern Biblical knowledge and research. The text conforms to the authorized edition, is self-pronouncing, with copious marginal references, maps and helps; printed on thin Bible paper; flat opening at all pages; beautiful readable type. Six free certificates and the ... **\$1.45**

##### Also an Edition for Catholics

Through an exclusive arrangement we have been most fortunate in securing the Catholic Bible. Douay Version, endorsed by Cardinal Gibbons and Archbishop (now Cardinal) Farley, as well as by the various archbishops of the country. Illustrations consist of the full-page plates and maps approved by the Church, without the Tissot and text pictures. It will be distributed in the same binding as the Protestant books, and at the same Amount Expense Items, with the necessary Free Certificates.

## HOW TO GET IT

### Present Six Certificates

Printed only in the Register, together with the stated amount that covers the necessary EXPENSE items of this wonderful distribution, including clerk hire, cost of packing, checking, express from factory, etc.

### and Receive This \$5.00 Book

This Bible is not a meaningless picture book. The illustrations serve a distinct purpose. They enrich the text, and they do more—they intelligently explain it so that many a hitherto obscure passage assumes to thousands a new meaning through these eye-teaching pictures.

### Comparison Is Impossible

for our new Bible stands alone—there is no other of its kind. Therefore, praise of this superb new book means no disparagement of the many excellent editions published heretofore.

Events that have been imperfectly comprehended become invested with the charm of living reality, and places that seem far off are made familiar, as though we ourselves had trod the hills and valleys of these historic lands. It may be truthfully said that this really superb edition of the book of books has an important mission to perform, in illuminating and vivifying the Bible narrative and giving it, as never before, a present, living, human interest.

## THE ILLUSTRATIONS ALONE COST OVER \$50,000

### 600 Text Pictures--Tissot Full Page Plates in Color

#### No Book in the World Like This at Any Price

This Bible is not a mere picture book. It is a genuine high art production, worthy of the Twentieth Century. In addition to the world-famed Tissot pictures in color are 600 illustrations, all exact copies of original paintings and drawings, which constitute the most wonderful gallery of Escriptural art in existence today—to this branch of the work, and at enormous cost, were called the greatest of living artists, and it is to their intelligent conception of the work and to their masterly skill in portrayal of Bible scenes that the superiority of this Bible over any yet produced is mainly due. Every picture is an eloquent sermon on these everlasting truths.

#### Mail Orders

Any book by parcel post, include extra 7c within 150 miles; 10c 150 to 300 miles; for greater distances ask your postmaster amount to include for 3 pounds. The Register, Santa Ana, Cal.

#### One Hundred of the World's Greatest Artists

Working under the advice of archaeologists and historians of wide renown, have contributed the choicest products of their skill and genius to produce this grand triumph of artistic beauty and perfection in historical detail. These pictures are not mere reproductions of mediaeval frescoes and more or less familiar modern photographs, inserted at random; they have been especially made, in the light of twentieth century knowledge to illustrate selected texts in accordance with the material beliefs of the greatest living theologians.
